

Description	Price
<b><u>ACHILLEA:</u></b> Sun loving, totally drought tolerant plants which will grow in most soil conditions even almost pure sand. Great for ground cover if allowed or required.	
<b>A.m. 'Credo'</b> Tall strong stems carry very large domed heads of clear yellow flowers which age to cream. July to August. 1.2m	€9.00
<b>A.m. 'Petra'</b> Dark rosy red flowers which don't fade as the season progresses. June to August flowering time.	€8.00
<b>A. m. 'Pomegranate'</b> A Blooms of Bressingham introduction and another excellent red variety with rich velvety red flowers. Quite compact, sturdy and with a full habit. Long flowering from June onwards, especially if regularly deadheaded.	€9.00
<b>A. m. 'Terracotta'</b> Terracotta flowers that fade to soft yellow. It is long flowering and drought tolerant. Has a good upright habit. Flowers June to September if deadheaded regularly. 90cm	€9.00
<b><u>ACTAEA:</u></b> Formerly known as 'Cimicifuga' this family of plants gives us some of the best and most striking garden perennials. Blooming late in the season , August onwards, they produce strong vertical spikes of bottlebrush-like flowers and prefer humus rich, moisture retentive soil in part shade.	
<b>A. s. 'James Compton'</b> Compact bronze leaved form. It has small numerous creamy white, sometimes tinged pink, fragrant flowers which appear in late summer into autumn. 1m	€12.00
<b>A. 'Chocoholic'</b> This is a fairly new variety with extremely dark purple, almost black feathery foliage, which looks attractive from spring onwards. Spikes of mauvish-pink fragrant flowers are produced in late summer. A shorter variety more suited to a smaller garden. Any reasonable soil, not too dry, in sun or part shade. Foliage keeps the colour better in more sun. Attractive to butterflies. 80cm	€10.00
<b>A. 'Dark Chocoholic'</b> Very similar to A Chocoholic except it has darker foliage. 80cm	€12.00
<b><u>AGAPANTHUS:</u></b> Flowering from July to September. Deciduous Agapanthus species come from colder regions and are generally hardier.They are drought tolerant and good coastal plants, coping well with wind and salt. They need good drainage, full sun and plenty of water during the growing season. As happy in a pot as in	

Description	Price
the garden, however pot culture requires that you give them a good quality John Innes No 3 mixture, and plenty of water during the growing season. Feed well with the likes of Osmocote pellets.	
<b>A. 'Black Buddhist'</b> Violet blue flowers with a dark stem. Flowers June to July. 90cm	€15.00
<b>A. inapertus 'Black Magic'</b> Dark indigo flowers which are almost black . Likes full sun. 80cm.	€15.00
<b>A 'Blue Magic'</b> Hardy down to -2. It has lovely broad leaves which are slightly arching. Very dark, intense blue flowers produced mid summer. 80cm	€15.00
<b>A. 'Blitz Prestige'</b> Beautiful dark blue flowers are produced during mid summer. 60cm	€15.00
<b>A. i. 'Midnight Cascade'</b> Jet black buds open into deep purple flowers from July to September. The flowers are pendulous and funnel shaped. Prefers well drained soil in sun. 70cm	€15.00
<b>A 'Moonlight Star'</b> This plant has a very upright habit, and produces lots of light blue flowers with a dark violet blue stripe. July to September. 75cm	€15.00
<b>A. 'Northern Star'</b> Violet blue flowers that have a darker purple stripe down the centre. 1m	€15.00
<b>A 'Pacific Blue' NEW</b> A very recent introduction that has broad strap like leaves and violet blue flowers. 90cm	€15.00
<b>A. 'Pretty Sandy'</b> Large light violet blue flowers which are up to 10cm across. Requires full sun and well drained soil. Will do well in a pot but must be fed regularly.	€15.00
<b>A. 'Purple Cloud'</b> A fairly vigorous, clump-forming perennial which produces rounded heads, 20-25cm across of trumpet-shaped, nodding flowers up to 5cm long. 70cm	€15.00
<b>A. 'Queen Mum'</b> Extra large dual coloured flowers which are white and violet and are produced from July to August. Plant in full sun or part shade. 1.2m	€15.00
<b>A. 'White Heaven'</b> A tall elegant form of Agapanthus which has huge white heads and trumpet shaped flowers from August to September and sometimes earlier if we have a good sunny spell.	€15.00

Description	Price
Likes full sun and well drained soil. 1.2m.	
<b>AMICIA zygomeris</b> A very handsome and unusual woody based plant with heart shaped leaves and lilac and yellow pea like flowers in summer and often into autumn. We saw this first in Helen Dillon's garden where it was magnificent. Grow in well drained soil in full sun. 2m	€16.00
<b>AMSONIA:</b> Easy and adaptable with dainty blue flowers and brilliant autumn colour, this is another family of plants that deserves better recognition in the garden. They are happy in either full sun or part shade.	
<b>A. 'Blue Ice'</b> Not as tall as others, it blooms later with larger, more loosely arranged flowers than the species and forms a dense compact mound of green leaves before turning a brilliant yellow in autumn. 35cm	€9.00
<b>A. 'Stella Azul'. RARE</b> Lovely blue, star shaped flowers from June to July. Full sun or part shade. 1m	€9.00
<b>A. tabernaemonta 'Storm Cloud'</b> Incredibly dark stems emerge from the ground, followed by olive green leaves which have slight silver veining. Star shaped periwinkle blue flowers appear early to late summer. 1m <b>LARGE SPECIMENS</b>	€15.00
<b>A. tab. var salicifolia</b> An erect clump forming perennial which produces clusters of beautiful blue star shaped flowers from late spring to early summer. The leaves turn a rich golden yellow in autumn. Likes moist soil but not boggy. 80cm	€9.00
<b>ANEMONE:</b> Often referred to as wind flowers, they are unfussy plants and some flower in spring and some mid summer. We do not sell the hybrida types which tend to take over your garden, instead we concentrate on the beautiful spring and summer flowering types.	
<b>A.cylindrica</b> A lovely species that has greenish white flowers that are produced June to July. Likes full or partial shade. 50cm	€8.00
<b>A. nemerosa 'Hilda'</b> Pure white, large flowers with petals so close together they look almost like a double. 25cm	€7.00
<b>A. n 'Royal Blue'</b> Large lavender blue flowers with a darker reverse. 15cm	€7.00

Description	Price
<p><b>A.n. 'Blue Eyes'</b> A rarely offered cultivar with fully double white flowers which have a very distinct blue eye. When young the plant can produce single flowers. Likes partial shade. 15cm.</p>	€7.00
<p><b>A. leveillei</b> Beautiful white flowers over deeply serrated foliage. Prefers moist well drained soil in some shade. 60cm</p>	€8.00
<p><b>A. rivularis</b> A summer flowering plant which is dormant in the autumn. The white flowers, about 2.5cm across appearing in June are tinged with metallic blue with the most startling blue anthers, and up to 12 are held in a raceme on upstanding branched stems. It is hermaphrodite and self-fertile. It forms attractive seed heads and the leaves are dark green and deeply branched like other anemones. If happy it forms clumps, readily growing to 75cm.</p>	€8.00
<p><b><u>ANTIRRHINUM 'Pretty in Pink'</u></b> This is said to be the first truly hardy Snap Dragon to come to the market and it certainly has proved to be. It came through, outside, during Storm Ophelia and The Beast from the East!! This variety has a vigorous clump forming habit . It will produce flowers throughout the summer months which are a stunning pink colour. Launched at Chelsea Flower Show 2015. Do not cut back foliage until Spring. 60cm</p>	€9.00
<p><b><u>ARUNCUS 'UIF'</u></b> An all round smaller version of Goats Beard. It has lovely dark green foliage and creamy white flowers mid summer. 70cm</p>	€9.00
<p><b><u>ASTERS</u></b> Now called Symphyotrichum, however we will continue to call them Asters. Members of the daisy family which like full sun and well drained, moisture retentive, soil. These plants deserve to be in every garden. All are attractive to bees and butterflies</p>	
<p><b>Aster amellus 'Blue King'</b> Large heads of violet blue flowers are produced from August to October. Deadhead regularly. 50cm</p>	€9.00
<p><b>Aster novae-angliae Andenken an Alma Potschke AGM</b> Recently awarded the coveted AGM award. Cerise pink flowers are carried on upright stems and are produced from August to October. 80cm</p>	€9.00
<p><b>A.n.a. 'Barr's Blue'</b> Clump-forming perennial with daisy like flowers which have a yellow centre. The flowers are produced from late Summer into Autumn. 1.3m</p>	€9.00

Description	Price
<b>A. n. a. 'Barr's Pink' NEW</b> Daisy like semi double, bright pink flowers with a yellow disc at the centre in early autumn. 1.5m	€9.00
<b>A. n. a. Harrington's Pink. AGM</b> Masses of pale pink flowers are produced mid summer. 1.2m	€9.00
<b>A. n. a. 'Helen Picton' AGM NEW</b> Lovely rich deep purple flowers and is reckoned to be the best purple to date in Asters. Flowers September to October. Mildew resistant. 1m	€9.00
<b>A. n. a. 'James Ritchie' NEW</b> Beautiful cerise pink flowers are produced late summer and have a yellow centre. 1.2m	€9.00
<b>A. macrophyllus 'Twilight' NEW</b> Very free flowering lavender mauve flowers with a yellow centre disc. 75cm	€9.00
<b>A.n.a. 'Marina Wolkonsky'</b> Deep violet blue flowers are produced late summer and well into autumn. Likes well drained soil and full sun to part shade. 90cm	€9.00
<b>A n a 'Rudelsburg'</b> Bright pink daisy like flowers with an orange disc. 75cm	€9.00
<b>A. n.a 'September Rubin'</b> Carmine pink flowers are produced in September and October. Makes a very good clump in a couple of years. Full sun or part shade. 1.1m	€9.00
<b>A.n.a. 'Violetta'</b> Tall plant with stiff upright stems. Rich purple flowers are produced from September into November. Deadhead regularly. Full sun or part shade. 1.5m	€9.00
<b>A. thompsonii</b> Large, striking, lilac blue flowers from July into autumn. Likes full sun and well drained soil. One of the parents of A. Monch but said to be a superior form. 80cm	€9.00
<b>A. 'Ice Cool Pink'</b> Rose pink flowers are produced from August to October. Full sun to part shade. 1.2m	€9.00
<b>A. 'Vasterival' NEW</b> Stunning black stems which carry pinkish lilac flowers which fade to almost white. 90cm	€9.00
<b><u>ASTRANTIA:</u></b> Given what it likes Astrantia is one of the most reliable and useful of garden plants. They flower almost non-stop from late	

Description	Price
Spring to Autumn. Deadhead regularly for constant re-blooming.	
<b>A. 'April Love' NEW</b> A new variety that is said to start flowering in April. Soft pink flowers on 70cm stems	€9.00
<b>A. 'Gill Richardson'</b> To our minds still the best of the dark red Aстранtia on the market. It has the deepest crimson flowers from May to October, except for a very short rest during midsummer. The new leaves take on a dark purple tinge before turning green. 75cm	€9.00
<b>A. involucrata 'Jumble Hole' NEW</b> Large white flowers, which have green edges, are produced for a long period over the summer months. 90cm	€9.00
<b>A. Roma</b> In our opinion the best pink form available. It looks spectacular in a large clump. A Piet Oudulf introduction and being sterile, it has a particularly long flowering season often from June right through to October. 70cm	€9.00
<b>A. 'Ruby Star'</b> A selected seedling of A Ruby Wedding. It has dark red flowers which are produced May to July, it takes a short rest and begins to flower late July to September. Prefers some shade for best colouring of flowers. 70cm	€8.00
<b><u>BAPTISIA</u></b> These rugged plants have lupin-like flowers and are very long lived. They grow slowly at first but after a few years form an attractive upright mound.	
<b>B. 'Blueberry Sundae' NEW</b> Deep indigo blue flowers are produced late spring into early summer. Has a very compact habit. 90cm	€15.00
<b>B. 'Caspian Blue' NEW</b> Vivid blue flowers sometimes with flecks of yellow or cream. The plant later produces black seed pods which adds an extra dimension to it. 90cm	€15.00
<b>B. 'Dark Chocolate' NEW</b> Almost black, charcoal purple coloured flowers on spikes reaching up to 65cm.	€15.00
<b>B. 'Dutch Chocolate'</b> Very recent introduction. This one produces spikes of sumptuous, velvety chocolate-purple blooms in late spring and early summer. Deep blue-green compact foliage. Decorative seed pods appear in the Autumn. Prefers well-drained soil in sun or part shade. 90cm	€15.00
	€15.00

Description	Price
<b>B. 'Pink Truffles'</b> Clear soft pink blossoms with a pale yellow keel are produced in late Spring. Very long lived and easy to grow.	
<b>B. 'Purple Smoke'</b> Smokey violet lupin like flowers appear mid spring 1.2m	€15.00
<b>B. 'Sparkling Sapphires NEW'</b> Vivid violet blue flowers in late spring to early summer. 90cm	€15.00
<b>B. 'Vanilla Cream'</b> Another fairly new introduction. Pastel yellow buds open to creamy vanilla flowers atop the compact clump of grey-green foliage which emerges bronze in spring. 1m	€15.00
<b>B. pendula alba</b> Spikes of pure white flowers are produced on charcoal grey stems. The foliage is a blue green colour and is quite upright. 90cm	€9.00
<b>BRUNNERA</b> They produce airy forget me not flowers which are a beautiful colour blue. Prefers to be grown in shade where the leaves will not be scorched by the sun.	
<b>B. 'Alchemy Silver' NEW</b> A vigorous selection with very impressive silver foliage and blue forget me not flowers. 70cm	€10.00
<b>B. macrophylla 'Alexander's Great'</b> Similar to B. 'Jack Frost' but the leaves are much much larger. It forms a large mound of heart shaped, silvered leaves that have contrasting green veins and a narrow green edge. Sky blue forget me not flowers are produced in spring and sometimes later in the season. 1m	€12.00
<b>B. m. 'Sea Heart'</b> Thick, heart shaped leaves, that are green on silver with pronounced veining. Can be grown very successfully in the woodland garden but needs good moisture retentive soil. Flowers mid to late spring. 30cm	€10.00
<b>B. m. 'Sterling Silver' NEW</b> A much improved version of B. Looking Glass. Stunning silver colouring and large heart shaped leaves which can be up to 35cm across. 70cm	€10.00
<b>CAMASSIA cusickii 'Zwanenburg'</b> Produces very dark blue flowers in May and has a paler stripe down the centre of each petal. Likes moisture retentive soil and a little shade. 60cm	€8.00
<b>C. semiplena</b> Very upright flowers which are a creamy white and double are produced from late May into June. 90cm	€8.00

Description	Price
<p><b>C. leitchlinii Pink Form RARE</b> A hard to get pink form of Camassisa leichtlinii. It has pale pink florets on strong upright stems. Best grown in moist fertile soil in full sun to partial shade. 60cm</p>	€12.00
<p><b><u>CAMPANULA</u></b> Stalwarts of the perennial border. There are Campanulas to suit all aspects and conditions. As a family they are as invaluable in the garden as Geraniums.</p>	
<p><b>C. latifolia White with a Dark Eye.</b> Large white flowers with a dark eye which is dark blue/black. This plant is spectacular as a large specimen and flowers from June to August. 1.2m</p>	€9.00
<p><b>C sibirica 'Royal Wedding'</b> Intesene blue flowers are borne on strong stems. Begins flowering late May. Excellent vigour and clump forming. Full sun and well drained soil. 85cm</p>	€9.00
<p><b><u>Alpine varieties:</u></b></p>	
<p><b>C. x pulloides 'G. F. Wilson'</b> A relatively small bellflower with intense violet coloured flowers which flower from June into August. Sun and well drained soil is required. 15cm</p>	€7.00
<p><b>C. 'Royal Wave'</b> Rich lilac, cupped shaped, flowers, with a prominent white centre, The flowers are upward facing displaying their full beauty and are produced from May to August. 15cm</p>	€7.00
<p><b><u>CENTAUREA pulchra Major</u></b> Also known as Stemmacantha or Rhaponticum. Very architectural plant that has silver green leaves which are white underneath. The flowers start off as 5cm balls of papery scales from which emerge pale pink thistle like flowers. 1m</p>	€9.00
<p><b><u>CHAEROPHYLLUM hirsutum roseum</u></b> A form of Cow Parsley which is pink. Makes a very good cut flower. Will grow in full sun or part shade. Flowers April to June. 75cm</p>	€9.00
<p><b><u>CIRSIUM 'Trevor's Blue Wonder'</u></b> Not a true blue but rather an intense deep heather purple. Likes well drained soil in full sun. Flowers June onwards. Pollinator friendly. 1.2m</p>	€9.00
<p><b>C. rivulare Atropurpureum AGM</b> Deep crimson thistle like flowers are produced most of the summer. A magnet for bees and butterflies. 1.2m</p>	€8.00

Description	Price
<p><b><u>CLEMATIS</u></b> We continue to offer more and different varieties.</p>	
<p><b><u>Pruning Group 1:</u></b> These plants flower on growth produced the previous year and, if needed, are just given a light pruning to remove spent flowers immediately after flowering. Old, woody plants can be pruned very hard – down to a couple of feet if necessary, preferably to just above some strong healthy growth – after flowering – to remove lots of the old non flowering growth. Plants make take a year or so to fully recover and start flowering properly again. Very old plants may never recover!</p>	
<p><b><u>Pruning Group 2:</u></b> These cultivars can be cut back fairly hard to between 90cm to 1.2m high – to just above a fat pair of buds/single bud, the former is better. Start pruning at the top of the plant and work your way down. Pruning is carried out at the end of February/early March</p>	
<p><b><u>Pruning Group 3:</u></b> these can be cut back very hard – 23-45cm high, again just above a pair of buds/single bud – removing nearly all the previous years growth. Start pruning at the bottom of the plant. Pruning is carried out at the end of February/early March.</p>	
<p><b>C. koreana 'Amber'</b> Introduced at Chelsea 2016 where it was an instant hit. Double near yellow flowers are produced with a pink tinge to the base of the flowers. May to September. Very nice seed heads. 2.5m Pruning Group 1</p>	€16.00
<p><b>A 'Andromeda'</b> Semi double white flowers with rose coloured bars in late spring, followed by single flowers later in summer. Very showy seed heads. Pruning Group 2. 3m</p>	€16.00
<p><b>A 'Annabella'</b> Small, nodding, urn shaped flowers which are pale purple. Flowers June to September. Pruning Group 3. 2.5m</p>	€16.00
<p><b>C. 'Anita'</b> The only white flowered tangutica that we sell. The buds start of creamy white and open to pure white flowers. Flowers July to October. Will also grow in part shade. 3m. Pruning Group 3.</p>	€16.00
<p><b>C. 'Aromatica'</b> Highly scented violet blue flowers, and a non climbing variety. Can be grown in a pot or in the border. Flowers June to September.</p>	€16.00
<p><b>C 'Astra Nova'</b> Very striking clematis with purple and white flowers. A viticella type. Pruning Group 3. 2.5m</p>	€16.00

Description	Price
<b>C. 'Beauty of Worcester' AGM NEW</b> Large double, or semi double flowers which are deep blue followed by single flowers in late summer. Creamy yellow anthers. Flowers May to September. Pruning Group 2. 2.5m	€16.00
<b>C. 'Bellissima' NEW</b> Large mauve blue flowers are produced from May to August. The first ones which are produced in spring are double and then the later flowers are single. First introduced in 2018. Pruning Group 2. 2m	€16.00
<b>C. 'Betty Corning'</b> A viticella type. Pale pinky blue nodding flowers which are scented. Flowers July to September. Pruning Group 3. 2.5m	€16.00
<b>C. 'Bill MacKenzie.</b> Yellow nodding flowers are followed by wispy seed heads in autumn. Begins flowering mid summer and will grow on a north wall. 3.5. Pruning Group 3.	€16.00
<b>C. 'Black Prince'</b> Medium sized, very dark purple flowers, almost black initially fading to dark purple. A viticella type. Flowers July to September. Will grow in sun or semi shade. Pruning Group 3.	€16.00
<b>C. 'Blue Light' NEW</b> Medium sized pale violet blue flowers which are double or semi double in spring and single later in the season. Flowers May to October. Pruning Group 2. 2.5m	€16.00
<b>C. 'Dark Eyes'</b> A viticella type. Very dark purple flowers are produced from June to August. Pruning Group 3. 2m	€16.00
<b>C. 'Dorothy Tolver'</b> A recent introduction with deep mauve pink flowers offset with yellow stamens. Flowers in Spring and again in Autumn. 3m. Pruning Group 2.	€16.00
<b>C. durandii AGM</b> A long flowering herbaceous variety that has showy star shaped deep blue upward facing flowers up to 10cm across.1.5m	€12.00
<b>C. 'Esther'</b> Beautiful blue flowers which change colour slightly during flowering. The flowers are 8-10cm across and are produced from May to June and then again July to August. 2m.	€16.00
<b>C. 'Etoile Nacree'</b> Early large flowered variety which has large pinkish white flowers which mature to white. Pruning group 2m	€16.00
	€16.00

Description	Price
<b>C. 'Etoile Rose'</b> A viticella/texensis type that has semi nodding deep pink flowers which fade to light mauve pink margins. Flowers June to September. Pruning Group 3. 3m	
<b>C. 'Etoile Violette'</b> Vigorous late flowering viticella type, which produces an abundance of deep purple flowers with creamy yellow centres from July to September. 3m	€16.00

<b>C. 'Spotlight' NEW</b> Small pale violet coloured flowers with a paler centre. Flowers May to August. 2m	€16.00
<b>C. 'Super Night' NEW</b> A new viticella type. Launched at Chatsworth Show in the UK 2019. Amazing dark violet coloured flowers that are 6-8cm across. Flowers June to September. Pruning Group 3. 3m	€16.00
<b>C. 'Sweet Summer Love'</b> Deep red buds open to cranberry violet flowers that are produced from July to September. Highly scented. 3.5m.	€16.00
<b>C. 'Taiga' NEW</b> This Clematis was launched at The Chelsea Flower Show in 2017. It has attractive double blue purple flowers that have a greenish white tip. Pruning group 3. 2.5m	€16.00
<b><u>CORYDALIS</u></b> These wonderful plants have ferny foliage and lovely flowers. It is a member of the Poppy family. Both blue and yellow flowered forms require full sun or partial shade.	
<b>C. calycosa</b> This plant has the most amazing blue flowers that we have seen on a Corydalis and the mouth of the flower is white. Flowers longer than most Corydalis, from May to July. 40cm	€8.00
<b>C. 'Korn's Purple'</b> A very strong growing variety that has violet blue flowers. The colour can be affected by the temperature producing flowers that can range from a metallic steel blue to deep violet blue. 50cm	€8.00
<b><u>CROCOSMIA 'Hellfire' AGM</u></b> It is one of the best varieties of Crocosmia to come to the market in years. Each reflex petal opens up wider than most other forms and the flowers are larger than C. 'Lucifer'. Flowers July to August. Deep red flowers and dark stems. 1m	€9.00
<b>C. 'Ellenbank Firecrest' AGM</b> A new cultivar from the Nursery of Elizabeth MacGregor in Scotland. Flowers are buttercup yellow inside, fringed and backed with red. Compact and profuse flowering. 60cm	€9.00
	€9.00

Description	Price
<b>C. 'Fire Jumper'</b> Bi coloured flowers on arching stems, they are golden yellow with an orange mid rib. Very open flower. 60cm	
<b>C. 'Fugue' NEW</b> An excellent variety that has clusters of large soft orange flowers with paler streaks. 1.2m	€9.00
<b>C. 'Gloria' NEW</b> Deep red flowers which become flushed with pale orange later in the season. 60cm	€9.00
<b>C. 'Karin'</b> This beautiful hybrid was introduced in 2015. It has arching, pleated leaves which grow to about 90cm. Blooms are red with a yellow blush running through the middle of the petals. June to August.	€10.00
<b>C. 'Limpopo'</b> A very distinctive and vigorous form. It has striking sprays of large, wide open coral coloured flowers almost 6cm across, and a yellow throat. Sun or partial shade. 90cm	€10.00
<b>C. 'Okavango'</b> A wonderful mixture of peachy apricot hues on this large flowered Crocosmia. 1m	€9.00
<b>C. 'Phillipa Browne' NEW</b> Orange red flowers are produced late summer . 80cm	€9.00
<b>C. 'Saracen' NEW</b> Dark bronze leaves sprays of large dark tomato red flowers with a yellow centre. 75cm	€9.00
<b>C. 'Tamar Glow' NEW</b> An impressive form which has large red flowers. 80cm	€9.00
<b>C. 'Zambesi'</b> Wonderful heads of upward facing flowers are produced from July to September. Flowers are a mid-orange colour with darker orange markings near the centre. 90cm	€9.00
<b><u>CYNARA</u> cardunculus AGM NEW</b> In summer tall flower stems are topped with fat thistle buds which resemble small globe artichokes. The buds finally open into large purple thistle flowers which attract masses of bees. 2.4m	€10.00
<b><u>DATISCA</u> cannabina NEW</b> Stout stems arch over at the tips weighted down by long strings of tiny green flowers that form graceful fringes in late summer. Full sun to partial shade. Very unusual. 2m	€10.00
<b><u>DEINANTHE</u></b> An unusual and seldom-encountered Chinese woodland perennial. Commonly called false hydrangea it is an herbaceous	

Description	Price
member of the Saxifrage family. Best grown in peaty, fertile, well drained but moist soil. Protect from strong winds.	
<b>D. 'Blue Wonder'</b> This forms a low, slow spreading mound of dark-green leaves, bearing clusters of lavender-blue blossoms in early summer. Petals are shaped like individual Hydrangea flowers, the blooms appearing early to midsummer. Best in rich, moist woodland soil and dappled shade, away from strong winds. Prefers some shade. 30cm	€15.00
<b>D. 'Pink Shi'</b> This variety has pale pink flowers from July to August. 50cm.	€15.00
<b><u>DELPHINIUMS</u></b> Best grown in a sunny site with good free-draining soil. We offer the New Millennium (Elatum Group) Series from New Zealand. They are tough vigorous plants with strong stems that carry long, elegant spikes of large flowers. Flowering in June and July, they respond well to being cut back hard after flowering and fed well when they should then produce a second flush of flowers later in the year. Flower spikes will range in height from 1.2m to 1.8m.	
<b>D. 'Blue Lace'</b> Densely packed spires of sky blue flowers with a touch of lavender pink. 1.8m	€12.00
<b>D. 'Black Eyed Angels'</b> Produces tall spires of frilly white flowers with a dark bee on very strong stems. Quite spectacular when in full flower. 1.5m	€12.00
<b>D. 'Faust' AGM</b> Tall spires of intense blue double flowers which have a dark bee. 2.5m	€12.00
<b>D. Gute Nacht NEW</b> Meaning Good Night. Deep dark blue flowers that have a white bee. Flowers July to September. Deadhead regularly. 1.6m	€12.00
<b>D. 'Sunglam'</b> Deep cream large flowers. 1.5m	€12.00
<b><u>DIERAMA pulcherrimum</u> 'Dark Cerise' NEW</b> Long arching fishing rods carry beautiful pendulous bells of deep maroon from July to August. 1m	€9.00
<b><u>DISPORUM bodineiri</u></b> Very impressive plant with branching stems and bell like flowers in May and June. The flowers are greenish white and appear at the end of the arching stems. 90cm	€10.00
<b><u>D. longistylum</u> 'Night Heron'</b> This sophisticated, elegant, practically evergreen perennial is a must for any garden. In spring dark purple black stems arise like asparagus from the soil. Each stem	€10.00

Description	Price
<p>produces gracefully arching side shoots, and in April clusters of pale yellow flowers are produced amongst the chocolate purple leaves. Likes sun or light shade, if grown in too much shade the purple colouring will fade. A plant discovered in China by Dan Hinkley. 1.6m</p>	
<p><b>D. megalanthum NEW</b> A shorter growing variety only reaching 60cm. Has beautiful white flowers which emerge in early April. Purple hued stems and rich green mahogany ribbed foliage. Moist but well drained soil.</p>	€9.00
<p><b>D. uniflorum</b> Pendant clusters of yellow bell-like flowers are produced April to May. A Korean and Japanese native which is just stunning as a mature plant. 40cm</p>	€10.00
<p><b><u>ECHINACEA</u></b> Easily grown in average soil that is well drained and in full sun. Echinaceas are great for extending the season. Flowering time is generally July to September and most will rebloom without deadheading but prompt removal of spent flowers will encourage continued blooming. <b><u>ECHINACEA NOT AVAILABLE UNTIL MAY</u></b></p>	
<p><b>E. Funky Yellow NEW.</b> The most unusual cone flower to date. A strong grower it has amazing yellow flowers with varying degrees of red in the petals. 70cm</p>	€9.00
<p><b>E. Funky White NEW.</b> A very strong growing variety with beautiful white flowers and purple colouring towards the base of each petal. July to September. 70cm</p>	€9.00
<p><b>E. Ivo's Poem NEW</b> A beautiful white variety that is a strong grower. 75cm</p>	€9.00
<p><b>E. 'Roho'</b> Large purple flowers are produced on this new Echinacea. Flowers July to October. 75cm</p>	€9.00
<p><b>E. Stilletto NEW</b> Lovely deep pink flowers from mid summer. Deadhead regularly for best flower production. Needs good drainage and full sun. 75cm</p>	€9.00
<p><b><u>ECHINOPS</u> ritro 'Veitch's Blue' AGM</b> A beautiful Globe Thistle which has dark blue flowers and silvery stems. Blooms from mid to late Summer. Loves full sun. 90cm</p>	€9.00
<p><b><u>EPILOBIUM album</u></b> Willow like green leaves and slender spires of white flowers. Does not self seed. 1.8m</p>	€8.00

Description	Price
<b><u>E angustigolium 'Stahl Rose'</u></b> Slender spires of pale pink flowers in late summer. Will grow in sun or part shade. 80cm	€8.00
<b><u>EPIPACTIS palustris</u></b> A lovely hardy orchid that produces spikes of red infused flowers with brownish sepals. They prefer damp areas in the garden. June to August. 50cm	€10.00
<b><u>EREMURUS 'Cleopatra'</u></b> A tall perennial that has tangerine flowers rising above imposing stalks. Likes full sun and very well drained soil. Plant so that only the top of the crown is covered otherwise the plant won't flower. 1.2m	€12.00
<b>E. 'Foxtrot'</b> Tall spires of pink flowers. Likes full sun and well drained soil. Again plant just below the surface of the soil. 1.2m	€12.00
<b><u>ERYNGIUM</u></b> Sea Holly. The aristocrats of the thistle world. Their foliage is both dramatic and handsome. Tap rooted – so resent disturbance. Like very good drainage and do well beside the sea.	
<b>E. 'Big Blue'</b> Stunning electric blue flowers that can reach 10cm across. The blue colouration extends down the stems. 75cm	€9.00
<b>E. bourghatii 'Picos Blue'</b> Very similar to E.b. 'Picos Amethyst' but slightly taller at 60cm. Elegantly marbled foliage. 60cm	€9.00
<b>E. b. 'Pico's Amethyst'</b> Deeply veined marbled foliage which is topped with amazing deep blue flowers in late summer. Full sun and well drained soil. 60cm	€9.00
<b>E. ebracteatum var. poteroides</b> Narrow green leaves with a spiny edge form a rosette, above which rise slender stems bearing many small dark maroon coloured cones. Elegant and intriguing, lovely with grasses and late perennials. Looks somewhat like a Sanguisorba. 1m	€9.00
<b>E. 'Jos Eijking'</b> Large metallic blue flowers on this wonderful Sea Holly. The stems also turn an amazing blue as the season progresses. Needs full sun and excellent drainage. 50cm	€9.00
<b><u>EUCOMIS</u></b> Pineapple Lily. Likes well drained soil in full sun.	
<b>E. 'Indian Summer' NEW</b> Spectacular bi coloured flowers that are a deep burgundy on the top and light pink at the base. 50cm	€12.00
<b>E. 'Johannesburg' NEW RARE.</b> Bi-coloured flowers with a green top and green base. 50cm	€12.00

Description	Price
<b>E. 'Pink Gin'</b> Beautiful large pink flowers with a darker centre are produced from July to September. 50cm	€15.00
<b>E. 'Playa Blanca' NEW</b> Introduced in 2010 it has the largest top knot of all Eucomis. Impressive heads of white flowers. 60cm	€10.00
<b>E. 'Sparkling Rosy AGM'</b> Dark green to purplish stems and spikes of deep red buds. 50cm	€10.00
<b>E. 'Twinkle Stars' NEW</b> Tall purple spikes with equally dark purple buds that open to light purple. 40cm	€15.00
<b><u>EUPATORIUM</u></b> Very much an underrated plant, but one that is rapidly becoming more popular and deservedly so too as they are great for giving late season colour in the garden. Happiest in moist, well drained soil in sun or part shade.	
<b>E. 'Riesenchrim' AGM</b> Fabulous huge heads of purple-pink flowers with dark purple stems. A magnet for bees and butterflies in late summer. July to September. 200cm	€9.00
<b>E. maculatum 'Humble'</b> Large flowers on this shorter Eupatorium. Reaching 80cm. Flowers July to September.	€9.00
<b>E. m 'Orchard Dene' AGM. NEW.</b> A very impressive form of Eupatorium which has dark coloured stems with darker markings. Large heads of pink-purple flowers are produced in late summer and into autumn. 2.5m	€10.00
<b>E. m. 'Mask'</b> Beautiful pink purple flowers are produced in late summer into autumn. A magnet for bees. 70cm	€9.00
<b>E. rugosum 'Lucky Melody' NEW</b> A really lovely dwarf variety that produces pure white flowers late summer into autumn. Full sun to part shade. 50cm	€9.00
<b><u>EUPHORBIA</u></b> Most will thrive in any well drained soil.	
<b>E. griffithii 'Dixter'</b> Stiff, dark green leaves edged orange-red, are topped with bright brick-red summer flowers that gently fade to yellow in autumn before dying back. 75cm	€9.00
<b>E. myrsinites</b> Sometimes called the Donkey Tailed spurge. It makes sprawling or trailing stems of blue grey leaves, with clusters of chartreuse yellow flowers appearing in spring.	€8.00

Description	Price
<p><b>E. Schilingii AGM</b> Handsome grey-green foliage with deep red edges and a white mid rib is produced on upright pink stems. Clear yellow flowers. July to September. 90cm</p>	<p>€9.00</p>
<p><b><u>EURYBIA spectabilis Macho Blue.</u></b> Large soft violet coloured flowers begin to flower in August and will continue until the first frosts. A member of the Aster family. Will take some shade. 40cm</p>	<p>€8.00</p>
<p><b><u>GERANIUM</u></b> Otherwise known as Cranesbill. These plants are generally long lived, versatile and undemanding. They are invaluable garden plants which are hard to beat for attractive ground cover. Most prefer ordinary soil and sun, although some forms do prefer shade.</p>	
<p><b>G. 'Azure Rush'</b> With G. 'Rozanne' as one of its parents, this cultivar already has a great head start. Large (6cm) light blue flowers are produced from May until the first frosts and is happy in sun or part shade. More mounded than spreading. 50cm</p>	<p>€9.00</p>
<p><b>G. 'Deux Fleurs'</b> Quite unusual in that it carries two flowers per stem. It prefers sun but will take semi shade. A lovely pink colouration. Grows to 40cm</p>	<p>€9.00</p>
<p><b>G. Double Jewel</b> A pratense variety which has double, white almost star shaped blossoms with purple-pink heart. Stunning as a mature plant. 45cm</p>	<p>€9.00</p>
<p><b>G. 'Dragon Heart'</b> Reaches just 30cm high in bloom, yet spreads up to 45cm wide and is so well-branched that it sets far, far more flowers than most others. These 5cm blooms are a rich, shimmering magenta with a black centre and deep red veins. They appear on very slender amber-brown stems, their bright beauty contrasting with the soft green of the large foliage. Repeat flowering.</p>	<p>€9.00</p>
<p><b>G. 'Foundling's Friend'</b> Small cerise coloured flowers with dark veining Prefers full sun or part shade. Needs good drainage to thrive. Flowers May to September. 60cm</p>	<p>€9.00</p>
<p><b>G. 'Havana Blues'</b> Larger than average (4-5cm diameter) flowers appear for many months from early summer above the clumps of yellow-green foliage. Each saucer-shaped blue bloom has a network of magenta coloured veins, which radiate out from the near-white centre. These provide a wonderful contrast to the colourful foliage.</p>	<p>€9.00</p>

Description	Price
Flowers June to September. 25cm	
<b>G. 'Lilac Ice' NEW</b> Soft lilac-pink flowers. One of its parents is G.Rozanne so sure to be a good doer, though not quite as vigorous. Flowers June to October. 35cm	€9.00
<b>G. 'Rozanne'</b> An exceptionally hardy geranium which flowers continuously from June until the first frosts. Large single violet-blue flowers have a paler centre and charcoal grey anthers. Great for a pot or in the border. Plant in full sun for best flower production. 45cm	€9.00
<b>G 'Rothbury Gem'</b> It is a dwarf variety and therefore suitable for the rock garden or a trough. Grey green foliage and pale pink veined flowers are produced from May to September. Deadhead regularly. 15cm	€8.00
<b>G. 'Shepherd's Warning' AGM</b> Another sanguineum type which has bright cerise pink flowers over low growing dark foliage. The dainty leaves will turn red in autumn. 12cm	€8.00
<b>G. 'Shooting Star'</b> Rich magenta flowers which are quite large and the foliage turns a lovely red colour in autumn. Flowers May to August. 30cm	€8.00
<b><u>GEUM</u></b> These plants have handsome, deep evergreen foliage, and bear their flowers on strong stems. They are easy in cultivation given fertile, moisture retentive soil. Full sun or part shade.	
<b>G. 'Scarlet Tempest'</b> Large double apricot, flushed scarlet, flowers are produced in late April and go on flowering profusely until the end of June, then take a short break and then flower into autumn. An Elizabeth MacGregor introduction. 45cm	€8.00
<b>G. 'Totally Tangerine'</b> It forms a low mound of coarse, fuzzy green leaves with very tall branching stems holding large bright apricot to tangerine blooms. Very floriferous and a robust grower. Deadhead regularly to encourage more buds to form. Terrific in containers. Attractive to butterflies. As I write this catalogue in January it is still flowering. 60cm	€9.00
<b><u>GILLENIA</u></b> Best in moist, humus rich soil in full sun or light shade but once established will withstand drier conditions.	

Description	Price
<b>G. stipulata</b> Very similar to G. trifoliata but the foliage is more bronze coloured in spring. Small starry white flowers from May to July.	€8.00
<b>G. trifoliata:</b> The small starry white flowers emerge in June from tight little red buds and last well into July. As the plant fades its deep green foliage and red stems take on warm autumnal tones of gold and burgundy and make for a long contribution to the garden. 120cm	€8.00
<b>G. 'Pink Profusion'</b> Has clear pink flowers that are held daintily above reddish leaves on deep red stems. Stunning as a mature specimen. 60cm	€9.00
<b>GLADIOLUS papilio 'Ruby'</b> A relatively new fully hardy variety, with larger hooded blooms than the species and with rich ruby red flowers in late summer. It soon clumps up if it has full sun and well drained soil. We have been growing it for about five years now and it is just stunning. . 75cm	€9.00
<b>GRASSES</b> Very statuesque plants that are easily accommodated in a mixed border. They keep their shape well into winter and should be cut down any time after Xmas.	
<b>ANDROPOGON</b> A tall grass native to the Great Plains of North America commonly called Big Blue Stem.	
<b>A. hallii 'Purple Konza'</b> Purple red stems which reach a height of 1.2m on this fantastic grass. Likes open dry soil in sun.	€9.00
<b>A. gerardii 'Weinheim Burgundy'</b> This variety of Andropogon has burgundy red leaves. An upright stem of flattened leaves which emerge blue green in spring and mature to green with red tinges as the year progresses. 2m	€9.00
<b>MISCANTHUS</b> They form dense clumps from an underground rhizome. Have a spectacular show of flowers in late summer.	
<b>M. s. 'Purple Falls'</b> A mid sized cultivar whose leaves turn a deep wine-purple especially in warm weather. Very spectacular in flower and absolutely stunning as a mature plant. The one in our garden is now five years old and is amazing in both leaf and flowers. 150cm	€9.00
<b>PANICUM virgatum 'Kulsenmoor'</b> . Bluish green foliage which turns red in autumn.80cm	€9.00

Description	Price
<b>P. v. 'Blue Darkness'</b> Outstanding blue green foliage which turns an amazing dark wine colour in autumn. 1.2m	€9.00
<b>P. v. 'Hot Rod'</b> A new variety which has dark red panicles held above blades which emerge blue-green and rapidly the whole plant turns a maroon red. 90cm	€9.00
<b><u>PENNISETUM</u></b> Also known as Fountain Grass. They have feathery, spike like panicles in Autumn. Like good drainage.	
<b>P. alopecuroides 'Black Alvernee' NEW</b> Dark brown coloured spikes, the tops of which are almost black. This is the darkest Pennisetum to come to the market to date. July to October. 70cm	€10.00
<b>P.a. 'Black Beauty'</b> Almost black inflorescences are produced in late summer to Autumn. Likes a sunny spot in the garden. 1m	€9.00
<b>P. 'Lady U' NEW</b> A very attractive grass which has narrow grey green leaves. It produces red brown bottle brush shaped inflorescences in late summer. 1.2m	€9.00
<b>P. 'Magic' NEW</b> A new introduction which has fluffy pink plumes which are tipped white. Flowers August to October. 75cm	€9.00
<b>P. a. 'Moudry'</b> A Fountain grass which forms an upright clump of arching leaves bearing spikes of dark purple bottlebrush inflorescences which turn silver as the season progresses. 90cm	€9.00
<b>P. orientale 'Flamingo'</b> Produces arching rose pink inflorescences in mid to late summer. Slightly later flowering than most. 75cm	€9.00
<b><u>SCHIZACHYRIUM scoparium 'Cairo' NEW</u></b> A beautiful grass which has green leaves in spring, which turns blue in summer and by autumn turns a reddish brown. Likes full sun. 80cm	
<b>S. s. 'Blue Heaven'</b> Very upright grass which does not fall over. In summer the foliage is a beautiful steel blue with purple highlights. Glossy purple panicles are produced late summer. Likes full sun. 1.3m	€9.00
<b>S. s. 'The Blues'</b> Leaves are blue tinted with pinkish tints also. It takes on burgundy red tones in autumn. Fluffy silver white seed heads are produced late the season. 1.1m	€9.00
<b><u>HEDYCHIUM 'Gold Spot' NEW</u></b> A member of the Ginger family and somewhat tender. This makes a wonderful addition to the tropical garden bearing white flowers and a brilliant orange colour at the throat. Full sun and well drained soil. 1.8m	€15.00

Description	Price
<b>H. 'Himalayan Lipstick' NEW. RARE.</b> Beautiful pink spidery flowers which are scented. These plants are tender and require winter protection. Full sun and well drained soil. 1.2m	€20.00
<b>HELENIUM</b> Mid to late season flowering plants. They are not fussy but need full sun and fertile soil. Will respond well to a spring feed and can be lifted and divided in early spring. Regular deadheading will encourage longer flowering.	
<b>H. 'Dauerbrenner' NEW</b> Rich red flowers with edging which is yellow. 1m	€9.00
<b>H. 'Fancy Fan' NEW</b> A lovely Helenium whose petals are yellow on top and a warm orange on the reverse. Flowers June to autumn if deadheaded regularly. 1.1m	€9.00
<b>H. 'Hot Lava' NEW</b> A stunning combination of colours which are yellowish-orange changing to red. July to October. 85cm	€9.00
<b>H. 'Mahogany' NEW</b> Dark red flowers from late summer well into autumn. Likes full sun and well drained soil.	€9.00
<b>H. 'Moerheim Beauty' AGM</b> Mahogany-red flowers from August to October. 1m	€9.00
<b>H. 'Poncho' NEW</b> Red-orange flowers from July to September. Moist but well drained soil. 60cm	€9.00
<b>H. 'Ranchera' NEW</b> Pure red flowers surrounding a brown cone. 60cm	€9.00
<b>H. 'Rauchtomas' NEW</b> Distinctive brown flecking on the petals which is more pronounced on the underside. 1.5m	€9.00
<b>H. 'Red Jewel' NEW</b> Clusters of deep red flowers that are faintly tinged with yellow at the edges. 75cm	€9.00
<b>H. 'Rotgold' NEW</b> A lovely German introduction which has bi-coloured flowers which are deep red with yellow margins. 1.2m	€9.00
<b>H. 'Rubinszwerg' NEW</b> Tall upright stems topped with clusters of red flowers that fade to orange as the season progresses. Brown cone that eventually turns yellow. Flowers July to August. 1.2m	€9.00
<b>H. 'Sahin's Early Flowerer' AGM</b> Produces a medley of shades with streaked orange petals that open from bronze buds, finally	€9.00

Description	Price
maturing to yellow. One of the earliest to flower. 90cm	
<b>H. 'Tijuana Brass'</b> Bright golden yellow flowers that have a dark gold cone. 1.5m	€9.00
<b>H 'Wonadonga' NEW</b> Red brown to orange flowers produced July to September. 1.2m	€9.00
<b><u>HOSTAS</u></b> Fantastic plants for shady spots in the garden.	
<b>H. 'June'</b> Still one of our all time favourites. Heart shaped leaves with a blue and green margin. A must for any garden. The deeper the shade this hosta is given the darker the colouring of the leaves.	€9.00
<b><u>IMPATIENS tinctoria</u></b> This is a terrific rare species from the African rain forests. It has large orchid-like blooms that are fragrant. It grows to 8m plus with bamboo like stems. With flowers that are 10cm wide they are the largest of the Impatiens species. Although this plant looks tender it has been grown successfully in Ireland. Likes some shade. <b>VERY FEW</b>	€20.00
<b><u>IRIS ENSATA</u></b> A species of Iris which is native to Japan, Russia and a few other eastern countries. They are available in a range of colours, including purple, whites and blues. These irises like to be planted in boggy wet soil or beside a pond or indeed in the pond. However we grow them in our well drained soil but they were heavily watered when planted. Large pots.	
<b>I. Ensata 'Amethyst'</b> Violet coloured flowers are produced June to July. 90cm	€10.00
<b>I.e 'Harlequinesque'</b> White flowers overlaid with splashes of fuschia blue and rich purples with a yellow throat. 70cm	€10.00
<b>I. e. 'Moonlight Waves'</b> Large rounded white falls slightly pleated at the centre bottom edge. 90cm	€10.00
<b>I. e. 'Queen's Tiara'</b> A stunning Japanese iris which is double. Broad white petals that display delicate purple veining and a yellow-green flash. Royal purple standards at the centre of the flowers create a striking contrast. 90cm	€10.00
<b>I.e.'Ruffled Dimity'</b> Pale lilac overlay on white flowers. Dark blue veining through the flower. Stunning as a mature plants.	€10.00
<b>I.e. 'Stippled Ripples'</b> White falls edged in lavender and each one	€10.00

Description	Price
is slightly ruffled. Flowers are large at 10cm across. 1m	
<b><u>KIRENGESHOMA palmata Black Style</u></b> This variety has striking black stems which produce cool yellow flowers from August to October. 1m	€10.00
<b><u>KNIPHOFIA</u></b> Commonly called Red Hot Pokers but now come in an array of other colours. They are extremely good in a seaside garden and flower for a long period. They like a well drained but not overly rich compost.	
<b>K. 'Elvira' NEW</b> Bright orange flowers on sturdy stems. Starts to flower in June and goes on until autumn. 1m	€9.00
<b>K. 'Ice Queen'</b> Single pale cream flowers tinged with green, turning to white as they age. Flowers June to September. 1.2m	€9.00
<b>K. 'Papaya Popsicle' NEW</b> A fiery blend of tomato red and yellow orange flowers from mid summer. 35cm	€9.00
<b>K. 'Mango Popsicle' NEW</b> Mango orange blooms are produced mid summer and continue into autumn. 90cm	€9.00
<b>K. 'Orange Vanilla Popsicle'</b> Tubular flowers bloom from the base upwards starting off a strawberry colour and maturing to a creamy vanilla. 35cm	€9.00
<b>K. 'Red Hot Popsicle' NEW</b> Deep red flowers are produced on this fairly new introduction. 75cm	€9.00s
<b>K. 'Toffee Nosed' AGM</b> Soft apricot tips fading to cream. Flowers June to August. 1m	€9.00
<b>K. 'Wrexham Buttercup' AGM</b> A wonderful array of colours, it turns from lime green buds, through shades of warm apricot and finally ageing to yellow. 1m	€9.00
<b><u>LAMIUM orvala</u></b> Will grow almost anywhere in the garden and therefore a very useful plant. It has rose pink flowers from May to June. 35cm	€8.00
<b><u>LILIUM 'Claude Shride'</u></b> A stunning Martagon lily which has mahogany red colour with yellow spots. Sun to partial shade. 1.5m	€8.00
<b><u>LOBELIA</u></b> Are happiest in moist, well drained soils in sun. Allow to die down in Autumn and then cover with 5cm of compost to protect	

Description	Price
from frost.	
<b>L. 'Hadspen Purple'</b> Intense purple to almost violet flowers on this beautiful Lobelia. Flowers July to September. 1m	€9.00
<b>L. 'Compton Pink'</b> Stunning pale pink flowers with darker pink undersides and centre, on erect stems throughout the summer. We saw this wonderful Lobelia in the garden of Graham Gough of Marchant's in the UK. 90cm	€9.00
<b>L. x speciosa 'Tania'</b> an upright perennial with purple-veined green foliage and spikes of vivid carmine-purple flowers from mid-summer to early autumn. It is happiest in moist soil, and will grow in sun or partial shade. Ideal for adding colour and vertical interest to the border in late summer when other perennials are starting to fade. 1m	€9.00
<b>L. tupa</b> An unusual and eye catching plant that comes from Chile where it can reach 2.5m tall. Its common name is Devil's Tobacco as the leaves are reminiscent of tobacco plants. The flowers are blood red and held on dark red purple stems. Likes moisture retentive soil in full sun. 1.2m	€10.00
<b><u>LYTHRUM</u></b> Although a native of the river bank <i>L. salicaria</i> does not absolutely insist on boggy conditions and is an easy robust plant for the moist border. The varieties we offer are not invasive.	
<b>L. s. 'Blush'</b> Long heads with clusters of pretty pink flowers which appear from summer through to autumn. 90cm	€9.00
<b>L. s. 'Dropmore Purple'</b> Intense purple-red flowers appear on tall flower spikes from early summer above lance-shaped foliage. This is a spectacularly colourful plant for watersides, pond banks and woodland borders where the soil is reliably moist. It is a clump forming perennial that attracts butterflies, birds and bees.	€9.00
<b>L. s. 'Lady Sackville'</b> Bears masses of rose pink flowers with elongated dark green leaves. June to September. 120cm	€9.00
<b>L. s. 'Pink Tails'</b> Bright pink flowers which appear from June until August. 1.2m	€9.00
<b>L. s. 'Robin' NEW</b> Magenta pink flowers over a long period usually from late spring into late summer. 1.2m	€9.00
<b>L. 'Rose Queen'</b> A very old variety which is a show stopper. It is a	€9.00

Description	Price
slender upright plant producing open airy bright pink flowers which are very elegant. 80cm	
<b>MONARDA 'Jacob Cline'</b> Otherwise known as Bergamot. All varieties have aromatic foliage. They are moisture loving plants and tend to suffer in poor dry soil. This variety has very dark red, almost maroon coloured flowers. Mid to late summer. 90cm	€9.00
<b>M. 'Elsie's Lavender'</b> Lavender flowers with purple bracts in August to September. 60cm	€9.00
<b>M. 'Gewitterwolke' NEW</b> Meaning Thundercloud. Dusky purple red flowers from July to September. 1m	€9.00
<b>M. 'Mahogany'</b> . Deep wine red flowers almost mahogany in colour are produced June to August. Likes moisture retentive soil in full sun. 1m	€9.00
<b>M. 'Mohawk' NEW</b> Deep purple mauve flowers with contrasting brownish bracts. 1.2m	€9.00
<b>M. 'Rockin Raspberry' NEW</b> Vivid raspberry purple flowers appear in July and continue until well into late August, especially if deadheaded regularly. 50cm	€9.00
<b>M. 'Talud'</b> Pinkish red flowers from pink bracts are produced during summer. A Piet Oudulf introduction. 90cm	€9.00
<b>M. tetraploid</b> Rose scented foliage with deep purple flowers. 70cm	€8.00
<b>M. bradburiana 'Maramek'</b> Pale lilac, almost pink, flowers are produced mid summer. Sun or part shade. 60cm	€9.00
<b>NEPETA nuda Anne's Choice NEW</b> Beautiful mauve grey flowers from July until September if deadheaded regularly. Sun to part shade. 1.2m	€9.00
<b>N. n. 'Accent'</b> Lovely pale purple flowers that have a dark centre. Flowers June to August. Deadhead regularly. 1.2m	€9.00
<b>N.n. 'Purple Cat'</b> Very upright perennial that has purple blooms from June to July. Sun and well drained soil. 80cm	€9.00
<b>ORIGANUM 'Amethyst Falls'</b> A quite spectacular form which has bright pink flowers. A very showy plant. Flowers from late spring into autumn if regularly deadheaded. Needs full sun and excellent	€8.00

Description	Price
drainage. 40cm	
<b><u>PARADISEA lusitanica</u>. NEW. RARE</b> A vigorous and robust plant that produces impressive upright spikes of white flowers in May and June. 90cm	€10.00
<b><u>PAEONIA lactiflora</u> 'Black Beauty'</b> Large deep maroon, almost black flowers in late spring early summer. This lovely Paeonia is a double form and grows to 1.2m	€15.00
<b><u>PIMPINELLA major</u> Rosea</b> Flat heads of tiny flowers, like a deep pink cow parsley or Queen Anne's Lace, are held on stiff stems. Prefers a sunny spot in the garden. Much loved by bees and butterflies. 1m	€8.00
<b><u>PODOPHYLLUM hexandrum</u> Majus</b> This variety of Podophyllum stands out over the rest of the species as it has unusual soft pink poppy-like flowers from April to June. Mottled leaves and bright red fruits late to mid summer. Light to moderate shade is needed. 60cm	€10.00
<b><u>POLYGONATUM</u></b> Solomon Seal family. These plants thrive in any soil which is not too dry. Their beautiful arching shape is best appreciated at the front of the border or among low woodland plants. May to June.	
<b><u>P. x hybridum</u> 'Betberg'</b> Named after a small village in the Black Forest. Emerging stems and young leaves are stained chocolate brown slowly fading as leaves mature. Creamy white bells are produced May to June followed by red berries in autumn. 80cm	€11.00
<b><u>POTENTILLA</u></b> Full sun and well drained soil best suits these long blooming plants which have strawberry like leaves and dainty saucer shaped flowers.	
<b><u>P. 'Arc en Ciel'</u></b> Meaning rainbow. Double button flowers which are orange red with a bronze coloured centre and narrow yellow margins. Flowers June to August. 45cm	€8.00
<b><u>RANUNCULUS aconitifolium</u> Flore Pleno. AGM.</b> Also known as Fair Maids of France and is said to have been introduced by Hugeonot refugees. Flowers are white and double and last a long time on the plant. Will grow in most conditions. 60cm	€8.00
<b><u>ROMNEYA coulteri</u> AGM</b> Tree Poppy. It may take a year or two but once established this plant has remarkable vigour. Fragile, crinkled, papery flowers, slightly smaller than a saucer with golden	€18.00
