

Description	Price
<b><u>ACHILLEA:</u></b> Sun loving, totally drought tolerant plants which will grow in most soil conditions even almost pure sand. Great for ground cover if allowed or required.	
<b>A. m. 'Credo'</b> Tall strong stems carry very large domed heads of clear yellow flowers which age to cream. July to August. 1.2m	€9.00
<b>A. m. 'Pomegranate'</b> A Blooms of Bressingham introduction and another excellent red variety with rich velvety red flowers. Quite compact, sturdy and with a full habit. Long flowering from June onwards, especially if regularly deadheaded.	€9.00
<b>A. m. 'Terracotta'</b> Terracotta flowers that fade to soft yellow. It is long flowering and drought tolerant. Has a good upright habit. Flowers June to September if deadheaded regularly. 90cm	€9.00
<b><u>ACTAEA:</u></b> Formerly known as 'Cimicifuga' this family of plants gives us some of the best and most striking garden perennials. Blooming late in the season , August onwards, they produce strong vertical spikes of bottlebrush-like flowers and prefer humus rich, moisture retentive soil in part shade.	1.2m
<b>A. s. 'James Compton'</b> Compact bronze leaved form. It has small numerous creamy white, sometimes tinged pink, fragrant flowers which appear in late summer into autumn. 1m	€12.00
<b>A. 'Chocoholic'</b> This is a fairly new variety with extremely dark purple, almost black feathery foliage, which looks attractive from spring onwards. Spikes of mauvish-pink fragrant flowers are produced in late summer. A shorter variety more suited to a smaller garden. Any reasonable soil, not too dry, in sun or part shade. Foliage keeps the colour better in more sun. Attractive to butterflies. 80cm	€10.00
<b>A 'Queen of Sheba'</b> A Piet Oudulf selection This variety has small and more delicate flowers than most Actaea. The foliage is a very dark purple brown and the flowers hang down slightly with a lovely fragrance. 1.2m	
<b><u>AGAPANTHUS:</u></b> Flowering from July to September. Deciduous Agapanthus species come from colder regions and are generally hardier.They are drought tolerant and good coastal plants, coping well with wind and salt. They need good drainage, full sun and plenty of water during the growing season. As happy in a pot as in	

Description	Price
the garden, however pot culture requires that you give them a good quality John Innes No 3 mixture, and plenty of water during the growing season. Feed well with the likes of Osmocote pellets.	
<b>A. 'Blue Heaven'</b> A very floriferous variety that flowers from midsummer into early autumn. Lovely blue flowers with a darker stripe down the centre of each petal. 1.2m	€15.00
<b>A 'Blue Magic'</b> Hardy down to -2. It has lovely broad leaves which are slightly arching. Very dark, intense blue flowers produced mid summer. 80cm	€15.00
<b>A 'Pacific Blue' NEW</b> A vigorous but compact plant with violet blue flowers in summer. 90cm	€15.00
<b>A. 'White Heaven'</b> A tall elegant form of Agapanthus which has huge white heads and trumpet shaped flowers from August to September and sometimes earlier if we have a good sunny spell. Likes full sun and well drained soil. 1.2m.	€20.00
<b>AMICIA zygomeris</b> A very handsome and unusual woody based plant with heart shaped leaves and lilac and yellow pea like flowers in summer and often into autumn. We saw this first in Helen Dillon's garden where it was magnificent. Grow in well drained soil in full sun. 2m	€16.00
<b>AMSONIA:</b> Easy and adaptable with dainty blue flowers and brilliant autumn colour, this is another family of plants that deserves better recognition in the garden. Happy in either full sun or part shade.	
<b>A. tabernaemonta 'Storm Cloud'</b> Incredibly dark stems emerge from the ground, followed by olive green leaves which have slight silver veining. Star shaped periwinkle blue flowers appear early to late summer. 1m <b>LARGE SPECIMENS</b>	€10.00
<b>ANEMONE Hilda</b> A stunning woodlander that likes moist but well drained soil. Summer dormant. They spread by means of the rhizome and can be divided every three years or so. 15cm	€7.00
<b>ANEMONE Lychette</b> A large flowered wood Anemone are white and are produced from April into May. Summer dormant. A shade lover. 15cm	€8.00

Description	Price
<p><b>A Monstrosa</b> Another woodlander that has lovely white flowers which are streaked with green. Flowers early spring so therefore summer dormant. 20cm</p>	€8.00
<p><b><u>ANTHIRRHINUM</u> Oh That's Cute</b> . A lovely cultivar which has prolific clusters of two tone lemon-yellow and soft pink flowers during the summer. Cut back when first flowering is over for second and even possible third flush the same season. Flowers can last up to 14 days in water. Well drained soil in sun or part shade. 30cm</p>	€9.00
<p><b><u>ARUNCUS 'Sparkles'</u></b> An all round smaller version of Goats Beard. It has lovely dark green foliage and creamy white flowers mid summer. The foliage takes on burnt orange colours in the autumn. 70cm</p>	€9.00
<p><b><u>ASTERS</u></b> Now called Symphyotrichum, however we will continue to call them Asters. Members of the daisy family which like full sun and well drained, moisture retentive, soil. These plants deserve to be in every garden. All are attractive to bees and butterflies</p>	
<p><b>A cordifolius 'Blue Autumn' NEW.</b> A strong upright variety covered with vivid, violet blue flowers. Flowers August to October 45cm.</p>	€9.00
<p><b>Aster novae-angliae Andenken an Alma Potschke AGM</b> Recently awarded the coveted AGM award. Cerise pink flowers are carried on upright stems and are produced from August to October. 80cm</p>	€9.00
<p><b>A n.a. Abendsonne NEW</b> Beautiful dark pink flowers are produced late summer. 1.4m</p>	€9.00
<p><b>A n.a. 'Barrs Blue'</b> Clusters of large semi double violet blue flowers are carried on upright stems . Flowers September to October and is much loved by bees and butterflies.</p>	€9.00
<p><b>A. n. a. 'Barr's Pink'</b> Daisy like semi double, bright pink flowers with a yellow disc at the centre in early autumn. 1.5m</p>	€9.00
<p><b>A.n.a. Carmen NEW</b> Semi double bright pink flowers with a yellow cone. Flowers late summer into autumn. 1.2m</p>	€9.00

Description	Price
<b>A n.a. 'Constance' NEW</b> Similar to A. Marina Wolkonsky but has a better habit. Blooms profusely with intense violet purple flowers that stand out. Flowers September to October. 1.4m	€9.00
<b>A n.a. 'Guido en Gazelle' NEW</b> Regarded as one of the best of the New England hybrids. Has dark blue, delicate flowers from early autumn. 1.5m	€9.00
<b>A. n. a. 'Helen Picton' AGM</b> Lovely rich deep purple flowers and is reckoned to be the best purple to date in Asters. Flowers September to October. Mildew resistant. 1m	€9.00
<b>A n.a. 'Kylie' AGM NEW</b> A rare cross between New England Aster and ericoides. Has soft lilac pink flowers whose colours fades somewhat as it ages. 1.2m	€9.00
<b>A n.a. 'Marina Wolkonsky'</b> Deep violet blue flowers are produced late summer and well into autumn. 90cm	€9.00
<b>A. macrophyllus 'Twilight'</b> Very free flowering lavender mauve flowers with a yellow centre disc. 75cm	€9.00
<b>A.n.a. 'Violetta'</b> Tall plant with stiff upright stems. Rich purple flowers are produced from September into November. Deadhead regularly. Full sun or part shade. 1.5m	€9.00
<b>A. thompsonii</b> Large, striking, lilac blue flowers from July into autumn. Likes full sun and well drained soil. One of the parents of A. Monch but said to be a superior form. 80cm	€9.00
<b>A. 'Ice Cool Pink'</b> Rose pink flowers are produced from August to October. Full sun to part shade. 1.2m	€9.00
<b>A x frikartii 'Flora's Delight' NEW</b> Deep mauve coloured flowers with a yellow centre. It flowers from June into autumn if deadheaded regularly. 50cm	€9.00
<b>ASTRANTIA.</b> Planting Astrantia in the right soil is crucial as they like moisture retentive soil and will in fact grow in clay soils. Most varieties prefer shade or part shade to retain colour.	
<b>A 'Cerise Button' NEW</b> A very recent introduction from Marco v Noort in Holland. Deep raspberry pink flowers are produced from late May. Deadhead to prolong flowering. 70cm	€10.00

Description	Price
<b>A 'Gill Richardson'</b> One of our favourites so much so that it is our logo. Very dark wine coloured flowers with dark staining on the leaves when they first emerge. 75cm	€9.00
<b>A 'Miss Ellie' NEW RARE</b> Lovely pale pink pin cushion flowers with slightly darker stamens. 60cm	€10.00
<b>A 'Red Joyce' NEW</b> Very deep red flowers and the green foliage is tipped with a maroon colouring. Flowers May to July. Deadhead regularly. 60cm	€10.00
<b>A 'Red Promise' NEW</b> A very showy red flowered variety which is quite new to the market. Likes some shade to preserve deep colouration on flowers. Prefers moisture retentive soil. 50cm.	€10.00
<b>A 'Superstar'</b> Also known as A. White Giant. Lovely white flowers which are tipped with green. Looks very much like A. Shaggy. Flowers June to September if deadheaded on a regular basis. 75cm	€9.00
<b><u>BAPTISIA</u></b> These rugged plants have lupin-like flowers and are very long lived. They grow slowly at first but after a few years form an attractive upright mound.	
<b>B. 'Blue Towers' NEW</b> Fabulous lavender blue flowers which are carried on long spires up to 45cm long. A very floriferous variety. 1.5m	€15.00
<b>B. 'Dutch Chocolate'</b> Very recent introduction. This one produces spikes of sumptuous, velvety chocolate-purple blooms in late spring and early summer. Deep blue-green compact foliage. Decorative seed pods appear in the Autumn. Prefers well-drained soil in sun or part shade. 90cm	€15.00
<b>B. 'Vanilla Cream'</b> Another fairly new introduction. Pastel yellow buds open to creamy vanilla flowers atop the compact clump of grey-green foliage which emerges bronze in spring. 1m	€15.00
<b><u>BRUNNERA</u></b> They produce airy forget me not flowers which are a beautiful colour blue. Prefers to be grown in shade where the leaves will not be scorched by the sun.	
<b>B. macrophylla 'Alexander's Great'</b> Similar to B. 'Jack Frost' but the leaves are much much larger. It forms a large mound of heart shaped, silvered leaves that have contrasting green veins and a narrow green edge. Sky blue forget me not flowers are produced in	€12.00

Description	Price
spring and sometimes later in the season. 1m	
<b>B. 'Queen of Hearts' NEW</b> This variety has very pronounced heart shaped leaves and stronger silver colouration. 45cm	€12.00
<b>B. m. 'Sea Heart'</b> Thick, heart shaped leaves, that are green on silver with pronounced veining. Can be grown very successfully in the woodland garden but needs good moisture retentive soil. Flowers mid to late spring. 30cm	€10.00
<b><u>CAMASSIA cusickii</u> 'Zwanenburg'</b> Produces very dark blue flowers in May and has a paler stripe down the centre of each petal. Likes moisture retentive soil and a little shade. 60cm	€8.00
<b><u>C.Semiplena</u></b> Very upright flowers which are creamy white and double which are produced from late May into June 90cm	€8.00
<b><u>CAMPANULA</u></b> Stalwarts of the perennial border. There are Campanulas to suit all aspects and conditions. As a family they are as invaluable in the garden as Geraniums.	
<b>C sibirica 'Royal Wedding'</b> Intesene blue flowers are borne on strong stems. Begins flowering late May. Excellent vigour and clump forming. Full sun and well drained soil. 85cm	€9.00
<b>C. 'White with Dark Eye'</b> Beautiful large white flowers which have a dark eye. Stunning as a mature clump. Likes full sun and well drained soil. 1.2m	€9.00
<b>Alpine Varieties we offer:</b>	
<b>C. x pulloides 'G F Wilson':</b> Erect, open bell shaped, violet blue flowers are produced on slender stems. Flowers July to August. 15cm	€8.00
<b>C. x pulloides 'Jelly Bells'</b> Large deep violet nodding bells . Needs full sun and good drainage. 20cm	€8.00
<b><u>CENOLOPHIUM denudatum NEW</u></b> A beautiful umbellifer that produces creamy white flowers above fern like foliage from mid summer. Likes well drained soil in full sun or part shade. Much loved by bees and butterflies. 1m	€9.00
<b><u>CENTAUREA pulchra Major:</u></b> Also known as Stemmacantha. A giant thistle like cultivar with jagged leaves. When in bud it looks like the top of a Russian Church, opening to wonderful pink flowers. Quite an architectural plant. 1.2m	€10.00

Description	Price
<b><u>CLEMATIS</u></b> We continue to offer more and different varieties.	
<b><u>Pruning Group 1:</u></b> These plants flower on growth produced the previous year and, if needed, are just given a light pruning to remove spent flowers immediately after flowering. Old, woody plants can be pruned very hard – down to a couple of feet if necessary, preferably to just above some strong healthy growth – after flowering – to remove lots of the old non flowering growth. Plants may take a year or so to fully recover and start flowering properly again. Very old plants may never recover!	
<b><u>Pruning Group 2:</u></b> These cultivars can be cut back fairly hard to between 90cm to 1.2m high – to just above a fat pair of buds/single bud, the former is better. Start pruning at the top of the plant and work your way down. Pruning is carried out at the end of February/early March	
<b><u>Pruning Group 3:</u></b> these can be cut back very hard – 23-45cm high, again just above a pair of buds or single bud however the former is better. removing nearly all the previous years growth. Start pruning at the bottom of the plant. Pruning is carried out at the end of February/early March.	
<b>C. koreana 'Amber'</b> Introduced at Chelsea 2016 where it was an instant hit. Double near yellow flowers are produced with a pink tinge to the base of the flowers. May to September. Very nice seed heads. 2.5m Pruning Group 1	€20.00
<b>C 'Andromeda'</b> Semi double white flowers with rose coloured bars in late spring, followed by single flowers later in summer. Very showy seed heads. Pruning Group 2. 3m	€18.00
<b>C 'Annabella'</b> Small, nodding, urn shaped flowers which are pale purple. Flowers June to September. Pruning Group 3. 2.5m	€18.00
<b>C. 'Aromatica'</b> Highly scented and a non climbing variety that reaches about 1.2m. The almost purple flowers mature to violet blue and when grown in full sun the scent is much stronger.	€15.00
<b>C. 'Betty Corning'</b> A viticella type. Pale pinky blue nodding flowers which are scented. Flowers July to September. Pruning Group 3. 2.5m	€18.00
<b>C. 'Bill Mackenzie' AGM</b> A tangutica type which has amazing seed	€18.00

Description	Price
heads and is one that can be grown through trees as it reaches a height of about 4.5m. It has yellow nodding bells in abundance from July to September. Pruning Group 3.	
<b>C. 'Black Prince'</b> Medium sized, very dark purple flowers, almost black initially fading to dark purple. A viticella type. Flowers July to September. Will grow in sun or semi shade. Pruning Group 3.	€18.00
<b>C. 'Blue Light'</b> Medium sized pale violet blue flowers which are double or semi double in spring and single later in the season. Flowers May to October. Pruning Group 2. 2.5m	€18.00
<b>C. 'Carmancita' NEW</b> A viticella type which will tolerate some shade. Flowers are carmine red to dark red and has deeper red veins and almost black anthers. Flowers July to September. 4m Pruning Group 3.	€18.00
<b>C. 'Caroline' NEW</b> Large pale pinkish white flowers that have a deeper shading at the base of the tepals. Flowers June to September. 3m. Pruning Group 3.	€18.00
<b>C. 'Dark Eyes'</b> A viticella type. Very dark purple flowers are produced from June to August. Pruning Group 3. 2m	€18.00
<b>C. durandii AGM</b> A long flowering herbaceous variety that has showy star shaped deep blue upward facing flowers up to 10cm across. 1.5m	€14.00
<b>C. 'Emelia Plater' NEW</b> A viticella type which has mauve to light blue flowers with a darker central bar. Flowers July to September and grows to about 3m. Pruning Group 3.	€18.00
<b>C. 'Etoile Violette' AGM</b> Masses of small to medium sized deep purple flowers and creamy yellow stamens. Flowers July to September. 4m. Pruning Group 3	€18.00
<b>C. 'Fujimusume'</b> Large sky blue flowers with creamy-yellow anthers. The name means 'Girl under Wisteria Bloom'. Early large flowered group. May to September. Sun or semi shade for this fabulous clematis. 2m. Pruning Group 2.	€18.00
<b>C. fusca var Violacea. NEW</b> Very dark coloured urn shaped flowers about 2.5cm long and composed of four deeply ribbed petals. Flowers June to September. 2m. Pruning Group 3.	€18.00

Description	Price
<b>C. 'Gypsy Queen' AGM. NEW</b> A viticella type. It has deep violet flowers which are larger earlier in the season and then the later flowers are produced in even greater profusion. 3m. Pruning Group 3.	€18.00
<b>C. 'Hanna'</b> Produces masses of pale blue nodding shaped flowers, that are scented, with a lilac rose central bar. Flowers July to September. 3m. Pruning Group 3.	€18.00
<b>C. 'Kaiu'</b> Nodding pitcher shaped flowers which have a purple grey tinge that turns to white as the flowers age. Flowers July to September. Pruning Group 3. 2m	€18.00
<b>C. 'Liberty'</b> One of the Patens group. This variety has red flowers with white stripes, and are about 12cm across. Flowers from April to May. 2m	€18.00
<b>C. 'Maria Cornelia'</b> A viticella type. Very free flowering with blooms that are mainly white with a creamy bar down the centre. Flowers July to September. 3m. Pruning Group 3.	€18.00
<b>C. 'Mary Rose'</b> A viticella type. Also known as C. viticella 'Flore Pleno'. Grey purple double flowers. This is a very old cultivar and was known as C. pergrina purpurea flore pleno in 1623 and the "double virgins bower" when described in 1629. Flowers June to September. 3m. Pruning Group 3	€18.00
<b>C. 'Multi Pink' NEW</b> A new double pink form with multi layers of spiky blooms. It is a sport of C. Hagley Hybrid and is a strong grower. Flowers July to September. 3m Pruning Group 3	18.00
<b>C. 'Niobe' NEW</b> Deep claret red flowers over a long period from early spring into autumn. 3.5m. Pruning Group 2.	€18.00
<b>C. 'Paul Farges'</b> Also sold under the name of C. Summer Snow. White flowers cover this stunning Clematis from July to early November. The flowers are slightly scented, more pronounced in a very sunny spot, and produced in abundance. 5m. Pruning Group 3.	€18.00
<b>C. pitcheri NEW</b> Small, urn shaped nodding flowers which are deepish pink on the outside, the tips roll back to expose the rich, deep red of the inside of the tepals. July to Sept. 2.5m. Pruning Group 3.	€18.00

<b>C. 'White Arabella'</b> This lovely cultivar was only introduced in 2018 and we think it is going to knock your socks off. It has large double flowers in the spring and single flowers later in the season. It starts	€18.00

Description	Price
flowering in May and goes on until September. 1.5m. Pruning Group 2.	
<b>C. 'Wonderful' NEW</b> A vitcella type. Red pink flowers whose filaments are pale green. 3m. Pruning Group 3	€18.00
<b>C. 'Yukikomachi' NEW</b> Large white flowers edged in pale lavender and greenish yellow stamens. Best grown in a shady spot to prevent the delicate colour from fading. May to October. 2.5m. Pruning Group 2	€18.00
<b>C. 'Yukiokoshi'</b> An old Japanese variety that has large flowers that are about 12-14cm across. Flowers May and June and again in August and September. 2.5m. Pruning Group 2.	€18.00
<b><u>COLOCASIA esculenta Black Magic: NEW</u></b> Also known as Black Elephant Ears. When the leaves first appear in spring they emerge green and as they mature they take on a bronze purple flush. Can be grown at the margins of a pond but must be taken in before the frosts as they are not hardy. We grow them in an aquatic basket which can be lifted in late autumn. 1.5m	€18.00
<b><u>CORYDALIS</u></b> These wonderful plants have ferny foliage and lovely flowers. It is a member of the Poppy family. Both blue and yellow flowered forms require full sun or partial shade.	
<b>C. calycosa</b> This plant has the most amazing blue flowers that we have seen on a Corydalis and the mouth of the flower is white. Flowers longer than most Corydalis, from May to July. 40cm	€8.00
<b>C. 'Korn's Purple'</b> A very strong growing variety that has violet blue flowers. The colour can be affected by the temperature producing flowers that can range from a metallic steel blue to deep violet blue. 50cm	€8.00
<b><u>CROCOSMIA 'Hellfire' AGM</u></b> It is one of the best varieties of Crocosmia to come to the market in years. Each reflex petal opens up wider than most other forms. Flowers July to August. Deep red flowers and dark stems. 1m	€9.00
<b>C. 'Fire Jumper'</b> Bi coloured flowers on arching stems, they are golden yellow with an orange mid rib. Very open flower. 60cm	€9.00
<b>C. 'Firestar Lava' NEW</b> Very large vivid orange flowers with red and burnt gold hints in the centre of the flower. 1m	€10.00

Description	Price
<b>C. 'Firestar Scorchio' NEW</b> Very large flowers with a yellow base and overlaid with orange and red central stripes. 80cm	€10.00
<b>C. 'Harmonia'</b> A fairly recent introduction from the National Collection Holder of Crocosmia in the UK. It has stunning red flowers and reaches a height of about 75cm.	€10.00
<b>C. 'His Majesty'</b> Bright burnt orange flowers which are about 10cm across. Flowers late summer into autumn. Quite dwarf at only 40cm.	€9.00
<b>C. 'Karin'</b> This beautiful hybrid was introduced in 2015. It has arching, pleated leaves which grow to about 90cm. Blooms are red with a yellow blush running through the middle of the petals. June to August.	€8.00
<b>C. 'Limpopo'</b> A very distinctive and vigorous form. It has striking sprays of large, wide open coral coloured flowers almost 6cm across, and a yellow throat. Sun or partial shade. 90cm	€10.00
<b>C. 'Star of The East'</b> A strong growing variety which has large flowers up to 10cm in size. Deep orange buds emerge they then open widely with soft orange flowers highlighted by a pale centre. 1.5m	€9.00
<b>C. 'Tamar Glow'</b> Extremely large flowers up to 6cm which are scarlet on the outside and have an orange throat. Flowers September to October. 80cm	€9.00
<b>C. 'Twilight Fairy Crimson' NEW</b> Bronze foliage topped with crimson coloured flowers. It is a shorter variety reaching only 40cm.	€10.00
<b><u>DEINANTHE</u></b> An unusual and seldom-encountered Chinese woodland perennial. Commonly called false hydrangea it is an herbaceous member of the Saxifrage family. Best grown in peaty, fertile, well drained but moist soil. Protect from strong winds.	
<b>D. 'Blue Wonder'</b> This forms a low, slow spreading mound of dark-green leaves, bearing clusters of lavender-blue blossoms in early summer. Petals are shaped like individual Hydrangea flowers, the blooms appearing early to midsummer. Best in dappled shade, away from strong winds. Prefers some shade. 30cm	€15.00
<b>D. 'Pink Shi'</b> This variety has pale pink flowers from July to August. 50cm.	€15.00

Description	Price
<p><b><u>DELPHINIUMS</u></b> Best grown in a sunny site with good free-draining soil. We offer the New Millennium (Elatum Group) Series from New Zealand. They are tough vigorous plants with strong stems that carry long, elegant spikes of large flowers. Flowering in June and July, they respond well to being cut back hard after flowering and fed well, when they should then produce a second flush of flowers later in the year. Flower spikes will range in height from 1.2m to 1.8m.</p>	
<p><b>D. 'Blue Lace'</b> Densely packed spires of sky blue flowers with a touch of lavender pink. 1.8m</p>	€12.00
<p><b>D. 'Black Eyed Angels'</b> Produces tall spires of frilly white flowers with a dark bee on very strong stems. Quite spectacular when in full flower. 1.5m</p>	€12.00
<p><b>D. 'Black Velvet' NEW</b> Fantastically intense double rich purple flowers. It was bred for the cut flower trade but is now being offered to retail. 1.2m</p>	€15.00
<p><b>D. 'Breezin' NEW</b> Stunning spires of double deep lilac flowers on well branched strong stems. May to July. 60cm.</p>	€12.00
<p><b>D. 'Celeste' NEW</b> A compact form which has sky blue flowers with a white eye. Flowers June to July. 1.25m</p>	€12.00
<p><b>D. 'Double Innocence'</b> Stately spires of double creamy white flowers. 1.5m</p>	€12.00
<p><b>D. 'Faust' AGM</b> Intense double blue flowers with a dark bee. Grows to about 1.8m</p>	€12.00
<p><b>D. 'Finsterahorn'</b> Intense gentian blue flowers are produced on this wonderful stately cultivar which grows to about 1.5m</p>	€12.00
<p><b>D. 'Juliette' NEW</b> Large fully double blooms which are in shades of soft pink. 60cm</p>	€12.00
<p><b>D. 'Mighty Atom'</b> Very large deep lavender flowers on this fabulous variety. 1.4m</p>	€12.00
<p><b>D. 'Pink Punch' NEW</b> Intense mulberry pink flowers which are semi double 1.5m</p>	€12.00
<p><b>D. 'Sherbert Lemon' NEW</b> Large soft pale yellow flowers with unusually frilly rosettes. May to July. 80cm</p>	€12.00
<p><b>D. 'Shelby' NEW</b> Double lavender flowers on this very well branched Delphinium. May to July. 60cm</p>	€12.00
<p><b>D. 'Sungleam'</b> Beautiful large deep cream flowers. Stunning as a mature plant. 1.5m</p>	€12.00

Description	Price
<b><u>DIERAMA pulcherrimum</u></b> 'Dark Cerise' Long arching fishing rods carry beautiful pendulous bells of deep maroon from July to August. 1m	€9.00
<b>D. p. var Album NEW</b> A beautiful white version of Angels Fishing Rod which sometimes has pinkish overtones. Flowers June to August. 1.05m.	€9.00
<b><u>DISPORUM bodineiri</u></b> Very impressive plant with branching stems and bell like flowers in May and June. The flowers are greenish white and appear at the end of the arching stems. 90cm	€10.00
<b><u>D. longistylum</u></b> 'Night Heron' This sophisticated, elegant, practically evergreen perennial is a must for any garden. In spring dark purple black stems arise like asparagus from the soil. Each stem produces gracefully arching side shoots, and in April clusters of pale yellow flowers are produced amongst the chocolate purple leaves. Likes sun or light shade, if grown in too much shade the purple colouring will fade. A plant discovered in China by Dan Hinkley. 1.6m	€10.00
<b>D. megalanthum</b> A shorter growing variety only reaching 60cm. Has beautiful white flowers which emerge in early April. Purple hued stems and rich green mahogany ribbed foliage. Moist but well drained soil.	€9.00
<b>D. trabeculatum NEW</b> A choice woodlander. The new foliage in spring has a bronze tint to it and then produces beautiful small white flowers in spring. 40cm	€9.00
<b>D. uniflorum</b> Pendant clusters of yellow bell-like flowers are produced April to May. A Korean and Japanese native which is just stunning as a mature plant. 40cm	€10.00
<b><u>EPILOBIUM album</u></b> Willow like green leaves and slender spires of white flowers. Does not self seed. 1.8m	€8.00
<b>E angustigolium 'Stahl Rose'</b> Slender spires of pale pink flowers in late summer. Will grow in sun or part shade. 80cm	€8.00
<b><u>EPIPACTIS palustris</u></b> A lovely hardy orchid that produces spikes of red infused flowers with brownish sepals. They prefer damp areas in the garden. June to August. 50cm	€8.00
<b><u>ERYNGIUM</u></b> Sea Holly. The aristocrats of the thistle world. Their foliage is both dramatic and handsome. Tap rooted – so resent	

Description	Price
disturbance. Like very good drainage and do well beside the sea.	
<b>E. 'Big Blue'</b> Stunning electric blue flowers that can reach 10cm across. The blue colouration extends down the stems. 75cm	€9.00
<b>E. bourghatii 'Picos Blue'</b> Deep blue flowers and stems and elegantly marbled foliage. 60cm	€9.00
<b>E. 'Jos Eijking'</b> Large metallic blue flowers on this wonderful Sea Holly. The stems also turn an amazing blue as the season progresses. Needs full sun and excellent drainage. 50cm	€9.00
<b>E. Lapis Blue' NEW</b> Large steely blue flowers which age to dark blue in summer, overly silvery foliage. Very strong stems. 40cm	€10.00
<b><u>EUPATORIUM</u></b> Very much an underrated plant, but one that is rapidly becoming more popular and deservedly so too as they are great for giving late season colour in the garden. Happiest in moist, well drained soil in sun or part shade.	
<b>E. colestinum NEW</b> A lovely form which is covered in beautiful blue flowers from September to October. Likes moist soil and will grow in some shade. 1m	€9.00
<b>E. 'Riesenchrim' AGM</b> Fabulous huge heads of purple-pink flowers with dark purple stems. A magnet for bees and butterflies in late summer. July to September. 200cm	€9.00
<b>E. maculatum 'Humble'</b> Large flowers on this shorter Eupatorium. Reaching 80cm. Flowers July to September.	€9.00
<b>E. m 'Orchard Dene' AGM.</b> A very impressive form of Eupatorium which has dark coloured stems with darker markings. Large heads of pink-purple flowers are produced in late summer and into autumn. 2.5m	€10.00
<b>E. m. 'Mask'</b> Beautiful pink purple flowers are produced in late summer into autumn. A magnet for bees. 70cm	€9.00
<b><u>GENTIANA</u></b> Noted for their very large trumpet shaped flowers which are often an intense blue.	
<b>G. ashiro 'Crystal' NEW</b> Very large white flowers and a compact habit. It starts flowering at the end of June and continues until the first frosts. 40cm	€15.00

Description	Price
<b>G. 'Little Pinkie' NEW</b> A shorter form than the above that has unique pink purple funnel shaped flowers . 12cm	€15.00
<b>G. 'True Blue' NEW</b> True sapphire blue flowers with upward facing 5cm flowers. Flowers midsummer into autumn. 45cm	€15.00
<b><u>GERANIUM</u></b> Otherwise known as Cranesbill. These plants are generally long lived, versatile and undemanding. They are invaluable garden plants which are hard to beat for attractive ground cover. Most prefer ordinary soil and sun, although some forms do prefer shade.	
<b>G. 'Azure Rush'</b> With G. 'Rozanne' as one of its parents, this cultivar already has a great head start. Large (6cm) light blue flowers are produced from May until the first frosts and is happy in sun or part shade. More mounded than spreading. 50cm	€9.00
<b>G. 'Dark Eyes' NEW</b> A new introduction which has a lovely combination of dark foliage and magenta coloured flowers bred by Elizabeth MacGregor in Scotland. Flowers from early summer onwards. Deadhead regularly. 50cm	€10.00
<b>G. 'Double Jewel'</b> An unusual variety that has double white flowers with a striking violet accent at the heart. Begins to flower early summer. 55cm	€10.00
<b>G. 'Dragon Heart'</b> Reaches just 30cm high in bloom, yet spreads up to 45cm wide and is so well-branched that it sets far, far more flowers than most others. These 5cm blooms are a rich, shimmering magenta with a black centre and deep red veins. They appear on very slender amber-brown stems, their bright beauty contrasting with the soft green of the large foliage. Repeat flowering.	€9.00
<b>G. 'Elke'</b> A very long flowering variety that has upward facing strong pink flowers with a small white eye and paler colouration at the edge of the petals. This has grown very well in one of our troughs for the past six years. Full sun and well drained soil. 20cm	€8.00
<b>G. 'Havana Blues'</b> Larger than average (4-5cm diameter) flowers appear for many months from early summer above the clumps of yellow-green foliage. Each saucer-shaped blue bloom has a network of magenta coloured veins, which radiate out from the near-white centre. These provide a wonderful contrast to the colourful foliage.	€9.00

Description	Price
Flowers June to September. 25cm	
<p><b>G. 'Rozanne'</b> An exceptionally hardy geranium which flowers continuously from June until the first frosts. Large single violet-blue flowers have a paler centre and charcoal grey anthers. Great for a pot or in the border. Plant in full sun for best flower production. 45cm</p>	€9.00
<p><b>G. 'Rozette'</b> A stunning new introduction that has beautiful large bright pink flowers with a white eye. The colour intensifies and the flowers appear larger and the white heart becomes more prominent as the season progresses. It has very compact growth for a wallichianum type. Full Sun. July to October. 25cm</p>	€9.00
<p><b>GEUM</b> These plants have handsome, 30cm deep evergreen foliage, and bear their flowers on strong stems. They are easy in cultivation given fertile, moisture retentive soil. Full sun or part shade.</p>	
<p><b>G. 'Coral Tempest. NEW</b> A sterile hybrid which was introduced in 2016. Has large double scarlet flowers with an apricot flush from mid spring. It then reflowers later in the year but the flowers are smaller. 45cm</p>	€9.00
<p><b>G. 'Peace Pipe' NEW</b> Apricot coloured flowers with beautiful seed heads. Flowers May to July.</p>	€9.00
<p><b>G. 'Scarlet Tempest'</b> Large double apricot, flushed scarlet, flowers are produced in late April and go on flowering profusely until the end of June, then take a short break and then flower into autumn. An Elizabeth MacGregor introduction. 45cm</p>	€9.00
<p><b>G. 'Totally Tangerine'</b> It forms a low mound of coarse, fuzzy green leaves with very tall branching stems holding large bright apricot to tangerine blooms. Very floriferous and a robust grower. Deadhead regularly to encourage more buds to form. Terrific in containers. Attractive to butterflies. As I write this catalogue in January it is still flowering. 60cm</p>	€10.00
<p><b>GLADIOLUS papilio 'Ruby'</b> A relatively new fully hardy variety, with larger hooded blooms than the species and with rich ruby red flowers in late summer. It soon clumps up if it has full sun and well drained soil. We have been growing it for about five years now and it is just stunning. . 75cm</p>	€9.00

Description	Price
<p><b><u>GRASSES</u></b> Very statuesque plants that are easily accommodated in a mixed border. They keep their shape well into winter and should be cut down any time after Xmas.</p>	
<p><b><u>ANDROPOGON</u></b> A tall grass native to the Great Plains of North America commonly called Big Blue Stem.</p>	
<p><b>A. hallii 'Purple Konza'</b> Purple red stems which reach a height of 1.2m on this fantastic grass. Likes open dry soil in sun.</p>	€9.00
<p><b>A. gerardii 'Weinheim Burgundy'</b> An upright stem of flattened leaves which emerge blue green in spring, maturing to green with red tinges as the year progresses. 2m</p>	€9.00
<p><b><u>HAKONECHLOA</u></b>: Also known as Japanese Forest Grass. Very elegant arching foliage. Looks amazing when grown with Hostas in the shade garden.</p>	
<p><b>H. macra</b> Has elegant arching foliage throughout the season. For best results grow in humus rich soil in cool shade. Cut down old foliage in spring before new growth appears. 40cm</p>	€10.00
<p><b>H. macra 'Naomi' NEW</b> A very eye catching form in that it develops red tints earlier and to a much greater degree than Aureola. The foliage emerges green in spring and soon develops red tints throughout the summer and continues to intensify as the autumn approaches. 45cm</p>	€10.00
<p><b>H. m. 'Sunflare' NEW</b> The leaves are a chartreuse yellow when they emerge and soon develop deep crimson tips, the colour becoming more intense if grown in sunshine. 45cm</p>	€10.00
<p><b><u>MISCANTHUS</u></b> They form dense clumps from an underground rhizome. Have a spectacular show of flowers in late summer.</p>	
<p><b>M. s. 'Purple Falls'</b> A mid sized cultivar whose leaves turn a deep wine-purple especially in warm weather. Very spectacular in flower and absolutely stunning as a mature plant. The one in our garden is now five years old and is amazing in both leaf and flowers. 150cm</p>	€9.00
<p><b>M. s. 'Red Wine' NEW</b> A large fast growing grass that has narrow green leaves and large burgundy red inflorescences later in the year. 1.4m</p>	€10.00

Description	Price
<b><u>PANICUM</u></b> Commonly called Switch Grass. They tolerate poor soil and drought conditions.	
<b>P. 'Blue Giants' NEW</b> A very new introduction from Germany that has blue grey foliage and stems topped with grey flowers in late summer and into autumn. 1.8m	€9.00
<b>P. 'Oxblood Autumn' NEW</b> A very new introduction that has dark red tones and reddish purple panicles late summer. 1.1m	€9.00
<b><u>STIPA ichu.</u> NEW</b> Also known as Peruvian Feather Grass. Elegant arching stems are topped with silver plumes and frothy seeds heads late the season. August to October. 1m	€9.00
<b><u>HEDYCHIUM</u></b> A member of the ginger family. They have large banana like leaves and they just need a good sunny spot in the garden with a nice rich soil and they will be very happy. Hedychiums are very strong, their chunky stems support themselves well, so there's little need for staking. Need winter protection.	
<b><u>H. aurantiacum</u> NEW</b> Mid to dark green leaves and from late summer fragrant orange red flowers appear. Unusually so this one likes part shade. 1.5m	€15.00
<b><u>H. garderianum</u> NEW</b> Pale yellow flowers which are very fragrant and held in dense spikes above the foliage. Flowers are produced late summer into autumn. 1m	€15.00
<b><u>HELENIUM</u></b> Mid to late season flowering plants. They are not fussy but need full sun and fertile soil. Will respond well to a spring feed and can be lifted and divided in early spring. Regular deadheading will encourage longer flowering.	
<b>H. 'El Dorado'</b> Gold yellow flowers with hints of red. Keep deadheading for best flower production. 75cm	€9.00
<b>H. 'Fancy Fan'</b> Quite an original look to this cultivar as it has rolled up petals which shows the yellow petals plus an orange reverse. Flowers July to September. 1.1m	€9.00
<b>H. 'Mahogany'</b> Brick red flowers with what looks like yellow stitching around the edge and a mahogany cone. 80cm	€9.00
<b>H. 'Moerheim Beauty' AGM</b> Mahogany-red flowers from August to October. 1m	€9.00

Description	Price
<b>H. 'Red Jewel'</b> Clusters of deep red flowers that are faintly tinged with yellow at the edges. 75cm	€9.00
<b>H. 'Sahin's Early Flowerer' AGM</b> Produces a medley of shades with streaked orange petals that open from bronze buds, finally maturing to yellow. One of the earliest to flower. 90cm	€9.00
<b>H. 'Short and Sassy'</b> Compact form which has bright orange and gold petals surrounding a chocolate brown cone. Likes full sun and well drained soil. 45cm	
<b>H. 'Tom'</b> A compact form that produces an abundance of flowers mid to late summer. The flowers are dark red with a brown cone. 50cm	€9.00
<b>HELIOPSIS:</b> A North American plant from dry prairies. Flower for a long time over the summer months.	
<b>H. helianthoides var scabra. 'Bleeding Hearts' NEW</b> Prized as being the first non yellow variety. This starts flowering July and continues until Autumn. The new flowers emerge intense orange red and mature to golden orange with red centres. Lovely black stems. 1.2m	€10.00
<b>H. helianthoides 'Fire Twister' NEW</b> Unique dark coloured foliage and black stems. It has intense red-orange blooms from June to September. 80cm	€10.00
<b>H. h. 'Fire Twister' NEW</b> Dark purple foliage and black stems offset the bright orange and red flowers. 75cm	€10.00
<b>H. h. Summer Nights NEW</b> Bright golden yellow daisy like flowers with a mahogany eye and dark purple stems. The mature flowers are all yellow 1.2m	€9.00
<b>HOSTAS</b> Fantastic plants for shady spots in the garden.	
<b>H. 'June'</b> Still one of our all time favourites. Heart shaped leaves with a blue and green margin. A must for any garden. The deeper the shade this hosta is given the darker the colouring of the leaves.	€9.00
<b>KNIPHOFIA</b> Commonly called Red Hot Pokers but now come in an array of other colours. They are extremely good in a seaside garden and flower for a long period. They like a well drained but not overly rich compost.	

Description	Price
<p><b>K. 'Coco Citron' NEW</b> Dense spikes emerge a creamy lime green which turns to a fresh lemon colour later in the season. Soon the buds go to canary yellow and end up a light butter cream. Very floriferous. 55cm</p>	€9.00
<p><b>K. 'Gladness' NEW</b> The bronze buds turn a coppery orange as they open eventually fading to cream. Flowers June to July and possibly later 90cm</p>	€9.00
<p><b>K. 'Ice Queen'</b> Slim pale cream flowers that are tinged with green which turn white as they age. Flowers June to August. 1.2m</p>	€9.00
<p><b>K. 'Tawny King'</b> One of the taller varieties producing dark bronze stems and tubular cream flowers. Start opening July and continue into October. 1.35m</p>	€9.00
<p><b><u>LINARIA</u></b> Otherwise known as Toad Flax. Like well drained soil and like to be grown in full sun.</p>	
<p><b>L. 'Canon J Went' NEW</b> Has spikes of tiny pink flowers all through the summer. June to September. 90cm</p>	€9.00
<p><b><u>LOBELIA</u></b> Are happiest in moist, well drained soils in sun. Allow to die down in Autumn and then cover with 5cm of compost to protect from frost.</p>	
<p><b>L. 'Compton Pink'</b> Stunning pale pink flowers that have a darker underside and centre, on erect stems throughout summer. By far our favourite of the Lobelia family. 90cm</p>	€9.00
<p><b>L. 'Monet Moment' NEW</b> Large heads of rich pink flowers from early August and into autumn. 90cm</p>	€10.00
<p><b>L. x speciosa 'Tania'</b> an upright perennial with purple-veined green foliage and spikes of vivid carmine-purple flowers from mid-summer to early autumn. It is happiest in moist soil, and will grow in sun or partial shade. Ideal for adding colour and vertical interest to the border in late summer when other perennials are starting to fade. 1m</p>	€9.00
<p><b>L. 'Tupa'</b> A very dramatic plant in that it has downy foliage which are held on red purple stems. It then produces midsummer blood red flowers. 1.2m</p>	€10.00
<p><b><u>LYSIMACHIA Elizabeth.</u></b> A lovely quite tall variety that has white flowers from late June into September. Likes moist soil.</p>	€10.00

Description	Price
<b>LYTHRUM. s. 'Blush'</b> Long heads with clusters of pretty pink flowers which appear from summer through to autumn. 90cm	€9.00
<b>L. s. 'Dropmore Purple'</b> Intense purple-red flowers appear on tall flower spikes from early summer above lance-shaped foliage. This is a spectacularly colourful plant for watersides, pond banks and woodland borders where the soil is reliably moist. It is a clump forming perennial that attracts butterflies, birds and bees.	€9.00
<b>L. s. 'Happiness'</b> Deep rosy pink flowers on this lovely new cultivar. 50cm	€9.00
<b>L. 'Helene' NEW</b> Lovely spikes of lilac flowers from July to September. 60cm	€9.00
<b>L. 'Joy' NEW</b> A new selection from the garden of Piet Oudolf. Lovely pink flowers are produced on strong stems from July to September. Likes moisture retentive soil. 70cm	€9.00
<b>L. s. 'Lady Sackville'</b> Bears masses of rose pink flowers with elongated dark green leaves. June to September. 120cm	€9.00
<b>MONARDA</b> Otherwise known as Bergamot, all varieties have aromatic foliage. They are moisture loving plants and tend to suffer in poor dry soil.	
<b>M. 'Jacob Cline'</b> This variety has very dark red, almost maroon coloured flowers. Mid to late summer. 90cm	€9.00
<b>M. 'Mohawk' NEW</b> Aromatic leaves and two lipped mauve to purple flowers are produced midsummer into autumn. Deadhead regularly. 1m	€9.00
<b>M. 'Talud'</b> Pinkish red flowers from pink bracts are produced during summer. A Piet Oudolf introduction. 90cm	€9.00
<b>NEPETA nuda Anne's Choice</b> Lovely mauve grey flowers from July until September. Deadhead regularly. Sun to part shade. 1.2m	€9.00
<b>N. 'Blue Dragon' NEW</b> A strong upright habit that has large violet coloured flowers. Likes full sun or part shade. July to September. 75cm	€9.00
<b>N.n. 'Purple Cat'</b> Very upright perennial that has purple blooms from June to July. Sun and well drained soil. 80cm	€9.00

Description	Price
<b><u>ORIGANUM</u></b> A drought tolerant plant which does very well in the edges of the garden or indeed in a trough or pot. Likes full sun and very well drained soil.	
<b>O. 'Amethyst Falls'</b> An amazing hybrid that blooms mid summer. It has cascading sprays of bright pink flowers which peek out of chartreuse coloured bracts. 40cm	€8.00
<b>O. 'Bellissimo'</b> Stunning pink flowers which resemble hops. Likes very sharp drainage and full sun. Does very well on a rockery. June to September. 40cm	€8.00
<b>O. 'Kent Beauty'</b> Forms a low trailing mound of powdery blue foliage. In summer it produces hop like flowers that are shrimp pink, green and cream. A great plant for a container or a trough. July to September. 30cm	€8.00
<b><u>PARADISEA lusitanica</u></b> .. <b>RARE</b> A vigorous and robust plant that produces impressive upright spikes of white flowers in May and June. 90cm	€10.00
<b><u>PELTOBOKINIA watanabei</u></b> A native to the woodlands of Japan. Produces rounded saucer-like leaves and when they emerge in spring they have attractive pinkish red tones and then mature to green as the season progresses. Small creamy yellow flowers are produced in June and July. 75cm	€12.00
<b><u>PENSTEMON 'Amelia Jane'</u></b> Lovely red pink blooms with a white centre from May to September. 90cm	€9.00
<b>P. 'Flamingo' NEW</b> Lovely rose pink flowers with white markings to the throat. 50cm	€9.00
<b>P. 'Woodpecker'</b> The most amazing blue Penstemon we have come across. It starts flowering late May and with deadheading it will continue until late autumn. Do not cut back old foliage until new growth appears in spring. 60cm	€9.00
<b><u>POTENTILLA 'Emilie' NEW</u></b> Semi double mahogany red flowers with yellow botches. Full sun to part shade. 45cm	€9.00
<b><u>PYCANTHEMUM 'Bee's Friend' NEW</u></b> Related to Marjoram and therefore very fragrant. The flowers are white with hints of lavender. As the name suggest very bee friendly. July to September. 70cm	€9.00

Description	Price
<b><u>ROSCOEIA</u></b> A member of the ginger family. The leaves are reminiscent of a miniature sweet corn with the flower at the apex.	
<b>R. p. 'Brown Peacock'</b> This is a low growing form with red streaked stems, and leaves which are striped red-brown on the edges, and are deep purple underneath. Pale rose violet coloured flowers . 60cm	€14.00
<b>R. 'Red Gurkha'</b> A fabulous red coloured ginger that also has red stems. Flowers July and August. Full sun or part shade. 40cm	€15.00
<b>R. p. 'Spice Island'</b> This hardy member of the Ginger family has dark leaves with deep red bracts. It produces lavender purple orchid like flowers mid summer. 50cm	€12.00
<b><u>RUDBECKIA</u></b> Also known as Cone Flowers. Plant in well drained soil in full sun.	
<b>R. fulgida var. speciosa 'Viette's Little Suzy' NEW</b> Bright yellow daisy like flowers that have a brown cone. Very drought tolerant. 50cm	€9.00
<b>R. 'Sun Ka Ching' NEW</b> Blooms profusely from August to October with beautiful golden yellow petals and dark brown cone. 1m	€9.00
<b><u>SALVIA</u></b> Need well drained soil and full sun to perform at their best. Do not cut back old foliage until new growth is seen in Spring.	
<b><u>SALVIA ARE NOT AVAILABLE UNTIL MAY.</u></b>	
<b>S. 'African Sky'</b> Masses of sky blue flowers are produced from late spring into late autumn. Sun or dappled shade. 80cm	€9.00
<b>S. 'Amante'</b> A new colour break for S. guarantica and is out of S. Amistad. Absolutely fabulous. Fuschia red flowers with a dark calyx. 1.2m	€9.00
<b>S. 'Amethyst Lips'</b> A very recent introduction. Produces an abundance of eye catching bi-coloured (sometimes solid colour) flowers that are purple and white. Likes full sun. 1m	€9.00
<b>S. 'Amistad' AGM</b> This plant starts flowering in May and continues on until October. Needs very well drained soil and full sun. Dark purple flowers with a nearly black calyx . An absolute magnet for bees and butterflies.	€9.00

Description	Price
